Forgotten Worlds: From Atlantis to the Hobbits

Over and over again, mainstream views of early history—which state that the first civilizations arose around 3500 B.C.—are plagued by evidence of much older civilizations, evidence ranging from artifacts and inexplicable remains to pyramids and ubiquitous myths that clearly speak of great empires prior to the rise of the Sumerian city states and pharaonic Egypt. Viewing Atlantis and its related myths as a metaphor for a long-lost global civilization, Patrick Chouinard explores the mythological, cultural, religious and archeological evidence for many forgotten civilizations across the world. Softcover, 288 pages, $20.

The Lost Tomb of King Arthur

One of the most enigmatic figures in world history, King Arthur has been the subject of many fantastical tales over the past 1,500 years, leading many scholars to regard him, and his fabled city of Camelot, simply as myth. But, as Graham Phillips shows through a wealth of literary and scientific evidence, King Arthur was a real man, Camelot a real place, and the legendary Excalibur a real sword—and Phillips has located them all. Phillips examines the earliest stories of Arthur as well as previously unknown ancient manuscripts preserved in the vaults of the British Library. He reveals the mythic king as a real-life A.D. 500 leader who united the Britons. Softcover, 304 pages, $20.

Forgotten Civilization: The Role of Solar Outbursts on Our Past and Future

Building upon his revolutionary theory that the Sphinx dates back much further than 2600 B.C., archeoastronomer Robert Schoch reveals scientific evidence of an advanced stone age civilization predating ancient Egypt, Sumeria and Greece, as well as the catastrophe he believes destroyed it 12,000 years ago. How else, Schoch asked, can we explain massive erosional damage on the Sphinx from water when Egypt has been dry for 10,000 years? What other explanation if not a solar outburst, according to Schoch? Softcover, 384 pages, $19.

The Races of Europe

By Carleton S. Coon, anthropology professor at Harvard. Although printed in 1939, this work remains a standard in racial typology. After a huge survey of the available data, Coon concluded that: The white race is of dual origin, consisting of sapiens and neanderthal types and purely sapiens types; the Upper Paleolithic people are the indigenous people of Europe; the Mediterraneans invaded Europe during the Neolithic period; when Upper Paleolithic survivors and Mediterraneans mixed, a process of “dinarization” occurred. Coon classified the white races after regions or archeological sites such as Borreby, Ladogan, East Baltic, Danubian, Lappish, Irano-Afghan, Hallstatt, Tronder, Dinaric, Noric, Armenoid etc. Softcover, 8.5 x 11, 436 pages, hundreds of maps, charts, photos, #608, $40.

The Lost History of Ancient America

This book by Frank Joseph and 20 eminent contributors presents new evidence of transoceanic visitors to old America, hundreds—even thousands—of years before Christopher Columbus. You will learn about: Old World plants in North America, underwater ruins off the coast of Oregon, Bronze Age oil wells in Pennsylvania, horses in America before Columbus, an Egyptian-style cat burial in Illinois, a Mexican pyramid’s liquid mercury, Kelts in Michigan, Greeks in Missouri, stone faces in Peru, Old World axes in America, ancient Georgia’s city of shells, the Topper site—34,000 years before the Siberians arrived, Vikings in Ontario, King Arthur’s American colony, more. Softcover, 288 pages, #755, $19.

The Great Pyramid Hoax: The Conspiracy to Conceal the True History of Ancient Egypt

By Scott Creighton. Foreword by Laird Scranton. The origins of the Great Pyramid of Giza are shrouded in mystery. Believed to be the tomb of an Egyptian king, even though no remains have ever been found, its construction date of roughly 2550 B.C. is tied to only one piece of evidence: the crudely painted marks within the pyramid’s hidden chambers that refer to the 4th Dynasty’s King Khufu, discovered in 1837 by Col. Howard Vyse and his team. Using evidence from the time of the discovery, along with high-definition photos of the actual marks, Creighton reveals how and why the marks were faked. Softcover, 224 pages, 75 B&W illustrations, #787, $16.
Ancient Visitors to the Americas: The Evidence

Articles cover the Kensington Rune Stone, Templars and Vikings in America, ancient Irish in America, Bronze Age copper miners in America, the Burrows Cave debate, white ancestors of many American Indian tribes, Phoenicians in America, ancient Chinese and Japanese artifacts found in Central and South America, the Newport Tower mystery, pre-Columbian maps of the Americas and the many Old World scripts found carved in stones in the Americas—including one of Minoan origin—plus more. Softcover, 183 pages, $15.

The Lost Colony of the Templars: Verrazano’s Secret Mission to America

In 1524, the Italian explorer Giovanni da Verrazano was sent by French King Francis I on an expedition ostensibly to find a shorter route to China. However, his true mission, says author Steven Sora, was to contact a Templar colony that had been established in what is now Newport, Rhode Island—site of the stone mystery tower—by Henry Sinclair in the 14th century. Softcover, 288 pages, #689, $17.

The Ancient Giants Who Ruled America

Here’s a groundbreaking study of the substantial evidence for a former race of large humans in North America and its possible 150-year suppression by the Smithsonian Institution. This book alleges that hundreds of giant skeletons have been found, particularly in the Mississippi Valley, as well as the ruins of the cities of the so-called “giants.” Author Richard Dewhurst also explores 400 years of giant finds, including newspaper articles, first-person accounts etc. This has been a popular seller to those Bible believers who are looking for an explanation for the gigantic Nephilim. Softcover, 357 pages, $21.

Atlantis in the Caribbean

Disproving many well-known Atlantis theories and providing a new hypothesis, Andrew Collins shows that what Plato recounts is the memory of a major ice-age cataclysm 13,000 years ago, when a comet devastated the island of Cuba and submerged part of the Bahamian landmass in the Caribbean. He parallels Plato’s account with corroborating ancient myths from the indigenous people of North and South America, such as the Maya, the Quiché, the Yuchi of Oklahoma, the islanders of the Antilles, and the natives of Brazil. The author explains how the comet that destroyed Atlantis in the Caribbean was the same comet that formed the “Carolina Bays” across the mid-Atlantic. He reveals evidence of sunken ruins, ancient complexes spanning more than 10 acres that clearly suggest urban development and meticulously planned road systems. Softcover, 528 pages, two eight-page B&W inserts, 19 B&W illustrations, #784, $20.

Templar Sanctuaries in North America

Drawing on his access as grand archivist of the Knights Templar of Canada and his own role as a descendant of both Sinclair and the Anishinabe tribe, William Mann examines new evidence of the Knights Templar in the New World long before Columbus. He reveals the secret settlements they built as they moved westward across the vast wilderness of North America, evading the European church and royal houses. He explains how the Templars found refuge in the sacred lodges of the Algonquins, whose ceremonies bear a striking resemblance to initiations of Freemasonry. Explores how Sinclair built sacred monuments, including the Newport Tower. The author also reveals the search for Templar sanctuaries to be the chief motivation behind the Lewis and Clark expedition. Softcover, 416 pages, 88 B&W illustrations, #785, $20.

The Discovery of the Nag Hammadi Texts: A Firsthand Account of the Expedition

Hidden for 16 centuries, the Nag Hammadi library, the most prodigious collection of sacred gnostic texts, was discovered in the late 1940s in a remote hamlet in Egypt. Among them was the Gospel according to Thomas, which aroused international publicity and alerted the world to the significance of this find. Here is the original survey of the contents of these documents and their significance. Jean Doresse’s narrative allows readers direct contact with an ancient form of Christianity through the philosophical wealth of the texts—ranging from gnostic revelations and Christian apocrypha to Hermetic literature. Included is the original English translation of the Gospel of Thomas published in 1960. Softcover, 384 pages, #786, 12 B&W illustrations, $20.

Spirits in Stone: The Secrets of Megalithic America—Decoding the Ancient Cultural Stone Landscapes of the Northeast

In this comprehensive guide to hundreds of lost, forgotten and mis-identified megalithic stone structures in the northeastern U.S.A., Glenn Kreisberg documents many enigmatic formations still standing across the Catskill Mountain and Hudson Valley region, complete with functioning solstice and equinox alignments. Sites include the “Wall of the Manitou,” “Devil’s Tombstone” and Overlook Mountain. Spirits in Stone is a groundbreaking study of ceremonial stone landscapes in northeast America and their relationship to other sites around the world. Kreisberg provides a first-person description of the Wall of the Manitou, which runs for 10 miles along the eastern slopes of the Catskill Mountains, as well as narratives about related sites that...
include animal effigies, reproductive imagery, calendar stones, enigmatic inscriptions and evidence of celestial alignments. Using computer software, he plots the trajectory of the Hammonasset Line, which begins at a burial complex near the tip of Long Island and runs to Devil’s Tombstone in Greene County, New York. He shows how the line runs at the same angle that marks the summer solstice sunset from Montauk Point on Long Island and, when extended, intersects the ancient copper mines of Isle Royal in Upper Michigan. Much more. Includes a foreword by Graham Hancock. Softcover, 432 pages, 376 B&W illustrations, #806, $25.

### The Mysterious Megaliths of New England

Scattered across New England are anomalous stone structures of great antiquity that defy explanation using the logic of mainstream historians. Employing their faulty timeline, these structures should not even exist. Why? They are clearly built not by the American Indians, but by some Old World European culture (or cultures), possibly thousands of years before Christopher Columbus set foot in the Western Hemisphere. Who built them and why? Who is responsible for the ancient scripts found carved in stone throughout the region? Why are these massive stone structures aligned to the rising and setting Sun of the equinoxes and solstices? Are there other out-of-place constructions in America’s northeast? Travel along with amateur historian Paul Angel as he tries to make sense of these ancient structures and mysterious carvings and, at the same time, set the mainstream historical timeline on its head. Softcover, 48 pages, $7.

### Anglo-Saxon Art

By Leslie Webster. This is the first book to take account of the 2009 discovery of the Staffordshire Hoard—the largest cache of Anglo-Saxon gold and silver metalwork yet found. Written by a leading scholar in the field and illustrated with many of the most impressive artifacts, it will be the authoritative book on the subject for years. From its first manifestations in the metalwork and ceramics of the early settlers, Anglo-Saxon art displays certain inherent and distinctive iconographic features. Despite the many new influences that were regularly absorbed and adapted by Anglo-Saxon artists and craftsmen, these characteristics continued to resonate through the centuries in the great manuscripts, ivories, metalwork and sculpture of this creative culture. Anglo-Saxon Art—which features 150 color and black-and-white illustrations—is arranged thematically while following a chronological sequence. An introduction highlights the character of Anglo-Saxon art, its leitmotifs, and its underlying continuities. Webster places this art firmly in its wider cultural and political context while also examining the conceptual relationship between the visual and literary art of the period. High-quality softcover, 7.5 x 9.5 inches, 256 pages, thick, coated stock, 160 full-color photos, beautifully designed, indexed, two maps, glossary, #771, $30. (Limited quantity.)

### The Aryan Race: Its Origins and Its Achievements

A beautifully written cultural history of the Indo-European peoples. The author, a classical scholar, defines “Aryan” as a “linguistic race” spanning the areas occupied by the great Indo-European invasion, reaching from India to Ireland, and proceeds to analyze all aspects of the cultures across this vast region. Along the way, he proves that the broad family of Indo-European language speakers had a common origin at some distant point in the past. It includes an overview of the development of ancient Indo-European households, farming arrangements, legal systems, culture, religion, language and political development. Read of the tales from the Rig-Vedas, their similarity to the Greek and Roman myths, and the parallels with the Norse Eddas and even Cúchulainn in Ireland. It is a treasure-trove of facts, myths and storytelling which reflects the collective genius of the Indo-European people across the centuries. The last chapter is about future racial development. Softcover, 252 pages, #829, $18.

### The Empire of the Hittites

By William Wright. Decipherment of Hittite inscriptions by Prof. Archibald Henry Sayce. Written by a senior biblical scholar at the British and Foreign Bible Society in London, this book has its roots in the author’s investigations of a series of inscriptions he discovered while on missionary work near Damascus in the Middle East. Convinced that he had found the first reference to the Aryan Hittites outside the Bible, the author then produced the first major work on the Hittite culture, examining them in terms of their own writings, and those of the Egyptians and Assyrians alike—without the fear of political correctness. The book then moves on to an evaluation of the geographical extent of the Hittite empire, its art and learning, religious and racial makeup. Softcover, 214 pages, completely reformatted, #743, $12.

### Money: The 12th & Final Religion

Author Duane Willing gives you the key to understanding why the illumined ones of the New World Order need to substitute secrecy for justice. Learn how God Moloch, devoid of any capacity for either mercy or forgiveness, is moving with brute force for world control behind the myth called Israel. The Moloch conceals the invention of credit-based money. Belief in money drives the human condition to prey on the planet and its inhabitants. Money creation has Biblical consequences called usury. The key to usury is hidden in the legend of the Holy Grail and in the parables of the Old and New Testaments. The covenant obligation to take dominion and prosper in harmony with nature is subverted by secretive organizations. There is talk of Bilderbergers, and various councils and globalist corporations. As if by design, the collective mind remains hypnotized by their Moloch magic of central banking with its perpetual (national) debts, money at interest and stock exchanges and income taxes. Softcover, 193 pages, #508, $17.
The Goths: From the Earliest Times to the End of the Gothic Dominion of Spain

By Henry Bradley, 1887. The Goths were an East Germanic tribe, whose two main subgroups, the Visigoths and the Ostrogoths, played an important role in the fall of the Roman empire and the emergence of Medieval Europe. Far too little credit has been given to the Goths for their role in forging what is now modern-day Europe, they being many times portrayed merely as hide-wearing barbarians. The Goths were far more sophisticated and civilized than that, as shown in this enlightening book on their rich culture and accomplishments. Softcover, 372 pages, #642, $26.

Fountain of Fairytails: A Scholarly Romp Through the Old Testament

The Old Testament is one of the most amazing collections of stories ever assembled. But does it prove the Jews have a legitimate claim to the Holy Land or that the vast kingdoms of David and Solomon ever existed? Author John Tiffany takes us on a whirlwind tour of the Old Testament, telling us which stories are pure balderdash—unsustainable through historic examination—and which have some basis in real archaeology. Tiffany also tells us which tales have been borrowed from other cultures. If you want proof the entire Old Testament is a faithful transcription of the word of Yahweh, read no further, for this book is more of a fast-paced tour of the Old Testament, not a dense religious treatise. Softcover, 169 pages, indexed, #656, $20.

Sketches from Roman History

In this fascinating volume you’ll read Roman history through the eyes of one of America’s great populist heroes, Thomas E. Watson. Eight chapters on Roman leaders, including Marius, the Gracchi, Pompey, Caesar, Octavius and also King Jugurtha of Numidia. You’ll also get Watson’s unique take on the saga of Antony and Cleopatra. Softcover, 132 pages, #599, $20.

The Children of Ra: Artistic, Historical and Genetic Evidence for Ancient White Egypt

Second edition, expanded and updated. By Arthur Kemp. Ra was the Sun god of ancient Egypt, and part of the religion of that culture was a belief that the pharaohs were descended from him. The Sun god was depicted with an eagle’s head and a human body, with the Sun sitting on its head—thus the association of red and blond hair with royalty among the ancient Egyptians. Lavishly illustrated with over 106 full-color pictures, the 2017 DNA evidence and a complete historical overview, this book proves that white people created the initial Egyptian civilization—and that ancient Egyptian culture came to an end once those people had been bred out of existence. Contains the dramatic DNA evidence that shows that Tutankhamun was of the same racial stock as present-day Western Europeans, and the astonishing results of the largest-ever DNA testing of Egyptian mummies by scientists at the University of Tuebingen. Also explains how this white-founded society was overrun and extincted—a somber warning to today’s West. Softcover, 86 pages, full color interior. #827, $16.

The Norse Discovery of America as Detailed in the Icelandic Sagas

The Viking and Norse exploration of the continent of North America remains one of the lesser-known episodes of pre-Columbian American history, despite its unquestioned authenticity and numerous archeological proofs. One of the more interesting sources for these early transatlantic voyages is to be found in the famous Icelandic sagas. Written and compiled by expert scholars and translated directly from the original Icelandic, the sagas showed that there were numerous Norse voyages of exploration—and settlements—in North America more than 500 years before Columbus. The research in this work also reveals that Columbus was aware of these Norse ventures, and that this knowledge provided valuable details such as approximately how many sailing days he faced. The sagas also contain many other fascinating details, such as the name of the first Norse baby born in North America, interactions with the natives and the location of their landing points and settlements. Completely reset, with all the original illustrations and the complete text. Softcover, 294 pages, #830, $18.

The Druids: A Short Introduction
By Barry Cunliffe. The Druids have been known and discussed for at least 2,400 years, first by Greek writers and later by the Romans, who came in contact with them in Gaul and Britain. According to these sources, they were a learned caste who officiated in religious ceremonies, taught the ancient wisdoms, and were revered as philosophers. But few figures flit so elusively through history. Even today, the Druids remain an enigmatic puzzle. Sifting through the most recent evidence, Barry Cunliffe offers an expert’s best guess as to what can and cannot be said about the Druid caste. Softcover, 144 pages, #577, $12. (Limited quantity.)

The Battle That Stopped Rome
In A.D. 9, a defector from the Roman military, known to the Romans as Arminius, led an army of Teutonic warriors who trapped and then ferociously butchered three entire Roman legions. The 20,000 soldiers killed were a quarter of the Roman army stationed north of the Alps. It was a blow from which the Roman empire never recovered and it unleashed a powerful Teutonic Europe. Details some impressive detective work by author Peter Wells on the actual site of the battle, which was opened to researchers in the past decade. Softcover, 272 pages, #423, $15. (Limited quantity.)

The Mysteries of John the Baptist: His Legacy in Gnosticism, Paganism & Freemasonry
Author Tobias Churton searches for the real historical person known as John the Baptist and the traditions that began with him. The Mysteries of John the Baptist explores why he is so crucially important to the Freemasons, who were originally known as “St. John’s Men.” This amazing work also explains the connections between John as lord of the summer solstice, what his mysterious severed head really meant, and fertility rites and the connection to ancient Jewish harvest festivals. Revealing John the Baptist as a courageous, revolutionary figure nearly as vital to Christianity as his cousin Jesus, Churton shows how John and Jesus, as partners, launched a covert spiritual operation to overcome corruption. Softcover, 288 pages, #728, $20.

Rise of the Aryans: How Ancient Whites Influenced & Established Global Civilization
All across the world are mysterious and ancient stone structures demonstrating not only advanced building techniques but also an incredibly sophisticated knowledge of archeoastronomy. From isolated Easter Island in the Pacific, to the mountain peaks of the Andes, from the British Isles and the Mediterranean to the steppes of Eurasia, from the arid deserts of western China to the Mississippi Valley of North America, some advanced culture was erecting megalithic structures that baffle scientists and archeologists even today. Once the cultures of the Indus Valley and the Tigris and Euphrates rivers were considered the oldest “real” civilizations, dating to sometime around 6,000 B.C. But the discovery of the Caucasian-built Gobekli Tepe temple complexes scattered across Anatolia changed all that. Dated to sometime around 9600 B.C., the structures at these ancient megalithic sites have thrown the mainstream understanding of the rise of civilizations into complete disarray. Who built them and why? What about the global pyramid phenomenon and the complex edifices at Knossos, Carnac and Stonehenge? Was it really extraterrestrial visitors from some far-off galaxy who constructed them, or is there a more plausible explanation—one grounded in answers right here on planet Earth? In Rise of the Aryans: How Ancient Whites Influenced and Established Global Civilization, respected historian, author and radio show personality Patrick Chouinard delves into these mysteries and provides real answers based on decades of research that do not involve little green men! Rise of the Aryans is a book you’ll want for your library, whether you are a professional historian or an armchair archeologist. Softcover, 314 pages, #834, $25 minus 10% for TBR subscribers.
An Amazing Two-Book Package on Oak Island

The Curse of Oak Island: The Story of the World’s Longest Treasure Hunt

From longtime *Rolling Stone* contributing editor and journalist Randall Sullivan, *The Curse of Oak Island* explores the curious history of Oak Island and the generations of individuals who have tried and failed to unlock its secrets. In 1795, a teenager discovered a mysterious circular depression in the ground on Oak Island, in Nova Scotia, Canada, and ignited rumors of buried treasure. Early excavators uncovered a clay-lined shaft containing layers of soil interspersed with wooden platforms, but when they reached a depth of 90 feet, water poured into the shaft and made further digging impossible. Since then the mystery of Oak Island’s “Money Pit” has enthralled generations of treasure hunters, including a Boston insurance salesman whose obsession ruined him, a young Franklin Delano Roosevelt and film star Errol Flynn. Perplexing discoveries have ignited explorers’ imaginations: a flat stone inscribed in code; a flood tunnel draining from a manmade beach; a torn scrap of parchment; stone markers forming a huge cross etc. Swaths of the island were bulldozed looking for answers; excavation attempts have claimed multiple lives. Theories abound as to what’s hidden on Oak Island—pirates’ treasure, Marie Antoinette’s lost jewels, the Holy Grail, proof that Sir Francis Bacon was the true author of Shakespeare’s plays—yet to this day, the Money Pit remains an enigma. *The Curse of Oak Island* is a fascinating account of the strange, rich history of the island and the intrepid treasure hunters who have driven themselves to financial ruin, psychotic breakdowns and even death in pursuit of answers. And as Michigan brothers Marty and Rick Lagina become the latest to attempt to solve the mystery, as documented on a popular television show, Sullivan takes readers along to follow their quest first hand. Hardback, 396 pages, #831, $28 minus 10% for TBR subscribers.

The Jew, the Gypsy and El Islam

Sir Richard F. Burton (1821-1890) was a captain of the Bombay Army, codiscoverer of the source of the White Nile with Joshua Speke, and British consul on the island of Fernando Po, at Santos, Brazil, at Damascus, Syria and at Trieste, Austria-Hungary. He was one of the most important linguists of his day. This book, written in 1898, consists of three extended essays that Burton had been working on for many years prior to his death. The “gypsy” portion details a group of people who are nearly invisible, their machinations going almost nearly undetected. The insightful details featured in the portion on Islam are of obvious topical interest today. However, the real treat is the portion containing his observations on the Jews he came across on his travels. Softcover, 214 pages, #809, $16.

Jewish Ritual Murder: A Historical Investigation

Wild claims about the sacrifice of Christian children have been made against the Jews for centuries. Most consider these accusations to be anti-Semitism at its worst, though many cultures sacrificed children in antiquity, including the Carthaginians. Dr. Hellmut Schramm covers ritual murder before 1840, famous cases from Damascus, Corfu, Xanten, Polna, Konitz and Kiev. Includes appendices reproducing testimonies given at famous court cases involving alleged ritual murder. Revised edition 2017. Softcover, 477 pages, #810, $27.

Judaism in Music: Wagner for the 21st Century

German composer Richard Wagner wrote with the same intensity that characterized his powerful music. In 1850, Wagner penned an article entitled “Judaism in Music,” which caused such a firestorm that, in 1869, he published a response entitled “Some Explanations Concerning Judaism in Music.” It turned into this book. This volume includes a foreword by Dr. Fredrick Töben and concludes with an essay about Wagner by Andrew Gray. Also includes Mark Twain’s remembrances of the time he went to hear Wagner. Softcover, 125 pages, #705, $15.

The Centuries of Revolution: Democracy, Communism and Zionism

Author and activist William A. White has stepped forward with an unsettling—but highly readable and consistently fascinating—expose of the dark forces behind world subversion that have worked relentlessly on virtually every front to forcibly transform traditional European and American culture for the benefit of the financial and political power of the organized Jewish community. Democracy, Communism and Zionism are the tools used to wreak their global mayhem and, believe it or not, they are very similar systems in many ways. Softcover, 200 pages, #617, $25.

From the Temple to the Talmud: Exploring Judaic Origins, History, Folklore and Tribal Traditions

Dr. Harrell Rhome offers a panoramic look at Jewish history, culture and religion from a Revisionist perspective. Not content to merely repeat the findings of other researchers, Rhome offers a new interpretation of Jewish history, one that is sure to enrage some and leave others standing in ovation. Includes research from politically incorrect sources, many illustrations and a lengthy list of sources for future research. Softcover, 261 pages, #606, $25.

The Work of All Ages: The Ongoing Plot to Rule the World from Biblical Times to the Present

By Peter Christian. This book is a brief history of the Jewish people, from the days of Abraham to the present. Some allege that, from ancient times, they have shared a vision of world supremacy, based on the belief that they are God’s “chosen people.” This book reviews some of the things that have been done over the centuries to advance their agenda. Softcover, 230 pages, #585, $25.

The Zionists: Zionist Wall Street

Here is an updated reprint of the classic book by Judge George Washington Armstrong that discusses the history of the Jews and their control of international finance. Includes sections on the Talmud, the Protocols, Federal Reserve System, the League of Nations, WWI, President Wilson, Theodor Herzl, Kaiser Wilhelm, the sultan of Turkey, Baron Rothschild of Paris, Franklin Roosevelt—portrayed as a traitor, the war criminals of Pearl Harbor, the Morgenthau-Zionist hate program, the Marshall and Levitski plans. Also includes the entire text of Armstrong’s famous book of nearly 100 pages entitled Zionist Wall Street. Softcover, 250 pages, #765, $18.

Lucifer’s Army: An Exposé of Talmudic Tyranny

This 2017 book by popular TBR author Peter Christian takes us on a whirlwind tour of Jewish and Zionist history in “chronological timeline” fashion, with to-the-point explanations of every event considered of import to the author’s thesis. Some people think the Jews run the world and have been doing so behind the scenes for quite some time. Others believe this is ridiculous, and that the Jews are just easy scapegoats, targeted because they have been so successful financially and politically over the decades. The author is definitely one who believes influential Zionists, Jewish financial giants and various secret societies have been operating the levers of power in many nations for a very long time. Softcover, 212 pages, #800, $15.

The Protocols of the Learned Elders of Zion

Confederate Monuments: Why Every American Should Honor Confederate Soldiers and Their Memorials

Throughout this densely illustrated work, the award-winning author sprinkles scores of additional Confederate images from the Victorian era, along with dozens of poems, quotes and genuine inscriptions from Confederate statues, all of which add further educational value to this powerful primer. A Rebel Born: A Defense of Nathan Bedford Forrest

Gen. Nathan Bedford Forrest was a brave and ingenious Confederate officer who won all but one of the battles he led; a philanthropist who gave generously to family, friends and charities; and a humanitarian who not only spared the lives of numerous Yankees on the battlefield, but who freed his slaves years before Lincoln issued his Emancipation Proclamation. Additionally, Forrest crusaded to bring new African immigrants into the South—with full civil rights. But, according to most authors, Forrest was a violent redneck, a racist, a barbaric slave trader, a philandering husband, an illiterate hillbilly, the founder of the KKK and “the butcher of Fort Pillow.” None of this is true. In this positive appraisal, the author corrects the falsehoods and shows that the negative image of Forrest derives solely from slanderous myths created 150 years ago by the anti-South propaganda machine. The longest book ever written on Forrest—2,000 footnotes, hundreds of rare pictures, a list of Forrest’s military engagements, an 800-book bibliography; a detailed index and more. Softcover, 822 pages, #776, $35.

The God of War: Nathan Bedford Forrest as Seen by His Contemporaries

In this book by Lochlainn Seabrook, you will discover the authentic Nathan Bedford Forrest in the words of those who actually knew him: Confederate soldiers, Union soldiers, military educators, foreigners, writers, politicians, neighbors, even children—all without the bigoted intrusions of politically correct editorializing, South-hating mythology, and absurd left-wing lies. Find out for yourself why Forrest was idolized around the world during the Victorian period, why he is classed with celebrated military commanders like Michel Ney and Joachim Murat, why he is more popular today than ever before, why new Forrest monuments are going up, and why he should be admired by people of all races. Softcover, 358 pages, illustrated, #811, $20.

Softcover, illustrated, 266 pages, #729, $20.

Award-winning historian Lochlainn Seabrook corrects the falsehoods about the South’s most famous ensign: the Starry Cross. The Memoirs of Col. John Singleton Mosby

These are the uncensored memoirs of John Singleton Mosby, the legendary Confederate cavalry leader who bedeviled the Union army for four years. With only a few thousand men, Mosby’s ability to strike fast and then melt away before an effective pursuit could be organized earned him the nickname “the Gray Ghost.” With daring feats like capturing a Yankee general out of his bed within his own headquarters, Mosby made his name synonymous with guerrilla warfare. Though universally admired by Southerners, he outraged many of his admirers after the war when he endorsed Ulysses S. Grant for president. After an appointment as U.S. consul to Hong Kong and a 16-year career with the Southern Pacific Railroad, he came to Washington as an assistant attorney in the Department of Justice. Loyal to the end to his commander J.E.B. Stuart, Mosby also answered accusations that Stuart’s mistakes cost Lee the battle of Gettysburg. But Mosby was more than just a cavalry genius, he was also a brilliant writer. You’ll read the personal and poignant recollections of his meetings with Grant and Lee, his accounts of the battles at Manassas, Fairfax Court House, Gettysburg and more. Also includes letters to his wife and others, as well as dispatches with some of the biggest names in the war. Softcover, 262 pages, $6.59, $25.

A Thousand Points of Truth: The History and Humanity of Col. John Singleton Mosby in Newsprint

During his life, Col. John Singleton Mosby—the Gray Ghost—was the subject of literally thousands of newspaper articles covering his exploits in the Civil War, his postwar career and his death. Yet, even after death, the public thirsted for tales of his exploits. The author, V.P. Hughes, had long been interested in the career of Mosby but never considered writing a book until she saw the great Southerner defamed by Bernard Vincent McMahon. McMahon said that he believed that both Mosby and Patton were better off forgotten because “Mosby, like Patton,” would have “gone into retirement hungering for the old limelight, beyond doubt indirectly sounding off on any subject anytime, anyplace. In time he would have become a boring parody of himself—a decrepit, bitter, pitiful figure, unwittingly debasing the legend.” These comments riled Ms. Hughes, who took it upon herself to get to know Mosby better than perhaps any other researcher by reading 1,000 newspaper articles on Mosby written over the span of 150 years. The author has come to know Mosby through these testimonies from countless eyewitnesses. She believes now is the time for those who also deeply respect John Mosby the soldier to now also respect John Mosby the man. Softcover, 790 pages, illustrated, $7.56, $35.
Abraham Lincoln Was a Liberal, Jefferson Davis Was a Conservative: The Missing Key to Understanding the American Civil War

In this fascinating one-of-a-kind book, award-winning Civil War scholar and unreconstructed Southern historian Col. Lochlainn Seabrook explains that, in the 1860s, the platforms of the two main political parties were the reverse of what they are today. At the time, big-government advocate Lincoln and the Republican Party were liberals, while small-government proponent Davis and the Democratic Party were conservatives. This simple fact transforms the American Civil War from what pro-North writers disingenuously assert was a battle over abolition and slavery, to what it really was: a massive and bloody contest between Northern liberalism and Southern conservatism! The author provides over 600 notes and hundreds of contemporary eyewitness statements to further establish what was well known up until the early 20th century, but which since then has been suppressed by liberals and forgotten by conservatives. Profusely illustrated with hundreds of 19th-century photographs and campaign posters, Seabrook’s book covers the entire history of America’s two-party system, as well as all 88 of our quadrennial elections and all 45 of our presidents, from Washington to Trump. This is the only book ever written on this specific topic. Softcover, 246 pages, $19.

War Crimes Against Southern Civilians

Walter Brian Cisco’s copiously documented exposé of Union Army war crimes rips the carefully constructed facade off Lincoln’s “army of emancipation.” Far from being an army of liberators, Union troops burned, raped, ravaged and terrorized Southern civilians from east to west. Politically correct history cannot hide the sins of the past, and a true examination of facts must occur before we can understand America’s most tragic era. Softcover, 192 pages, $25.

Red Republicans and Lincoln’s Marxists: Marxism in the Civil War

Was Abraham Lincoln influenced by Communism when the Union condemned the rights of Southern states to express their independence? It’s shocking to think so. But that’s precisely what Walter D. Kennedy and Al Benson Jr. assert in this book. The pair completely reassess this tumultuous time in American history, exposing the politically correct view of the War for Southern Independence as nothing less than the same observation announced by Marx himself. During the American Civil War, Marx wrote about his support of the Union Army, the Republican Party and President Lincoln himself. In fact, he named the president as “the single-minded son of the working class.” Kennedy and Benson also ask pertinent questions about the validity of today’s federal government and why its role seems so much larger than ever before. Softcover, 269 pages, $569, $25.

The Real Lincoln: A New Look at Abraham Lincoln, His Agenda and an Unnecessary War

Thomas J. Dilorenzo shows Lincoln as he truly was, a mentally unstable despot bent on dragging the nation into years of unnecessary fratricide. A side of Lincoln few ever knew existed is exposed. The book argues convincingly that Honest Abe was a calculating politician who subverted the Constitution, disregarded states’ rights and achieved the closest thing to a totalitarian dictatorship yet seen on U.S. soil—even worse than FDR! Softcover, 361 pages, $427, $16.

Too Afraid to Cry: Maryland Civilians in the Antietam Campaign

By Kathleen Ernst. What might you do if you woke up in the morning and found all of your livestock dead or gone and a hundred corpses on the front lawn? What about the marauding armies from both sides who might still be coming your way to steal your food, burn your home or even murder you and threaten your womenfolk should you happen to be on the “wrong” side? Where would you go? Where would you hide? Could you escape? Representing 10 years of research, this book recounts the experiences of ordinary people caught up in the extraordinary events at the Battle of Antietam in 1862. For those who think war is a glorious affair, this account will reaffirm the point that war is something to be avoided at all costs, as it affects not just soldiers, but the huge numbers of innocent inhabitants caught up in its fury. This book contains numerous period photos and illustrations, a detailed author’s preface and extensive footnotes, bibliography and index. Softcover, $30 pages, $77, $25.
Robert E. Lee on Leadership: Executive Lessons in Character

Gen. Robert E. Lee eluded the Union juggernaut for four years and cunningly thwarted his foe by applying successful leadership and military acumen, winning many battles even though losing the war. However, his reputation and legacy have remained intact, suggesting leadership principles that could be applied today. In very readable prose, H.W. Crocker reviews Lee’s career in the military, as a farmer and later as a college president. At the end of each chapter, Crocker provides a section called “Lee’s Lessons”—leadership principles based on Lee’s Christian lifestyle, his education and his character. Softcover, 256 pages, #484, $15.

Maryland, My Maryland: The Cultural Cleansing of a Small Southern State

By Joyce Bennett. Maryland was founded as a plantation colony like Virginia, and its way of life did not differ greatly from Virginia’s. The “Star-Spangled Banner” was written by Francis Scott Key as he watched the British attack on Baltimore during the War of 1812. But few know that, in 1861, Francis Key Howard, his grandson, wrote this: “The flag which then he so proudly hailed, I saw waving at the same place over the victims of as vulgar and brutal a despotism as modern times have witnessed.” Howard was one of the many Marylanders who were political prisoners of Lincoln, arrested to prevent Maryland from seceding. See what the lovely state of Maryland has lost, and how it has been slowly and methodically “Northernized” for over a century. Softcover, 214 pages, #775, $22.

Memoirs of the Confederate War for Independence: A Prussian in J.E.B. Stuart’s Cavalry

By Heros von Borcke. This is a highly detailed personal memoir of Heros von Borcke’s adventures with dashing cavalry leader Gen. J.E.B. Stuart. A giant of a man, von Borcke carried a huge broadsword and was entrusted with secret assignments by Stuart. An incredible writer, he was the first to use the word “tank” as a military vehicle. Softcover, 399 pages, #516, $23.

Blood Money: The Civil War & the Federal Reserve

By John Graham. The author chronicles how the divisive antagonisms between the North and South, finally erupting in the spring of 1861, were deliberately agitated by great international banking houses with the goal of provoking secession. According to Graham, these private interests fully succeeded and set up a huge financial empire centered on Wall Street, using public debt as the source of their wealth. This watershed book explores the economic causes of the Civil War, revealing how the Civil War would not have happened had it not been planned and fomented by the unbridled greed of Northern capitalists. Softcover, 96 pages, #507, $13.

Blood in the Ozarks: Union War Crimes Against Southern Sympathizers & Civilians in Missouri

LAST REMAINING COPIES! Deep in the eastern Ozarks of Missouri, a battle still rages about a massacre that happened on Christmas Day of 1863. While some call it a simple rescue mission to liberate captured Union soldiers, others claim that it was mass murder, which included women, children and the elderly—27,000 Missouri citizens were killed during the war. To this day, local historians with an axe to grind have worked diligently to cover up the Christmas Day massacre and other war crimes to protect local reputations. Author Clint Lacy has taken up historian Jerry Ponder’s torch of truth and, in this book, he presents all the known evidence, making a strong case that the Wilson Massacre did in fact occur as Ponder claimed. Softcover, foreword by Prof. Ray Goodwin, six appendices with period newspaper reports, diary entries, photo section, 157 pages, #725, $17.

The Southerner: The Real Story of Abe Lincoln

Did Abraham Lincoln have other plans in mind for the racial integrity of America? Have we misinterpreted his intentions in regard to the freeing of slaves? Contrary to the Hollywood myth, Abraham Lincoln’s greatest desire was to free blacks from slavery—and then send them all back to Africa or Central America. Only an assassin’s bullet halted him from implementing these plans, as revealed in this engrossing work from Thomas Dixon Jr., the famed author of the Reconstruction Trilogy, set against a backdrop of the major events of the War Between the States. Softcover, 351 pages, #649, $26.

The Darkest Dawn: Lincoln, Booth & the Great American Tragedy

Many books have discussed the killing of Lincoln, but few have shown us the immediate aftermath of the president’s assassination: the public panic … the news that other members of the cabinet had been targeted or attacked … the massive manhunt for Booth … the arrest of the alleged conspirators … and a populace begging for revenge—all of this happening even as a war was still raging in some parts of the country. But this story has never been told with the immediacy and intimacy of The Darkest Dawn. Author Tom Goodrich brings to this narrative the gripping accounts of eyewitnesses to it all, from the moment of the assassination in Ford’s Theater—seen through the eyes of attendees—right up through the manhunt for John Wilkes Booth, the executions of the accused conspirators and beyond. As you have come to expect from Tom Goodrich’s books, the manuscript is filled with ultimate detail—told by those who were there—and is as fresh as today’s news but presented through the eyes of a private investigator. Softcover, 376 pages, #842, $22.

The Gunpowder Plot: 17th-Century False Flag—The Traditional Story Tested Against the Evidence

By John Gerard. Edited by John Tiffany. The Gunpowder Plot of 1605—known at the time as the Gunpowder Treason Plot or the Jesuit Treason—was billed as a failed assassination plot against Protestant King James I of England by a group of English Catholics led by Robert Catesby and Guy Fawkes. The official story was that the “conspirators” were going to blow up the House of Lords during the opening of England’s Parliament on the 5th of November by igniting a massive cache of gunpowder stored in the cellars under the houses of Parliament. But does the evidence stand up to scientific scrutiny? You may be surprised by the conclusion. Find out more in this new edition of the well-researched 1897 book. Softcover, 203 pages, #676, $22.

The Cid Campeador and the Waning of the Crescent in the West

By Henry Butler Clarke. Written in 1897, here is the story of Rodrigo Díaz de Vivar (c. 1043-1099), a Castilian nobleman and military leader in medieval Spain. The Moors called him El Cid, which meant the Lord (probably from the original Arabic al-sayyid). The Christians called him El Campeador, which means “Outstanding Warrior.” Written before the era of political correctness, here is the Cid’s story—and that of Spain—from the Muslim conquest (A.D. 711) to the time of the Cid himself, until his death in A.D. 1099. Chapters cover the Saracen conquest, the ancestry of the Cid, the legendary accomplishments of the Cid as a young man and his youthful exploits, the reign of Don Sancho, the accession of Don Alfonso and the banishment of the Cid, the Cid in exile, the conquests of Alfonso and the Saracen princes of the south, the Almoravides in Spain, the Battle of Zalaca, the reconciliation of Alfonso and the Cid, Yusuf’s return, the outlawing of the Cid again, conquests in Andalusia, the unification of Spanish forces, the revolution at Valencia, Ibn Jehaf, sieges of Valencia, the Cid’s victory, the last battle, his death. Includes three appendices: 1) Combats between noblemen; 2) Laws of banishment; and 3) 11th-century ritualistic controversy. Softcover 382 pages, 20 illustrations, #820, $25.

Theodoric the Great: The Barbarian Champion of Civilization

By Alfred J. Church. Too many people think the Crusades were “bald Christian aggressions against the Muslims of the Mideast.” Here is a wonderful retelling of the stories of the First, Third and Eighth Crusades, narrated by a fictional “wandering Jew” (cursed to live until the Second Coming of Christ). The author explains how the Islamic military conquest of huge areas of the Byzantine empire sparked off the call to crusade, and then weaves the story of some of the most famous characters and events of the Crusades. From the dizzying successes of the First Crusade to the recapture of Jerusalem by the Muslims, the reader will meet Richard Lion-heart, Duke Godfrey, Saladin, King Louis of France and others. The reader also discovers the full tragedy of the ill-fated “Children’s Crusade” and more. Softcover, 175 pages, #746, $15.
of Nedao (A.D. 454). From the age of 10, Theodoric had grown up as a hostage in Constantinople, receiving a privileged imperial Roman education. He succeeded his father as leader of the Pannonian Ostrogoths in 473. And just 15 years later he would find himself the ruler of the remnants of the western Roman empire as well as the Ostrogoths and Visigoths. This is his amazing story. In this classic book, written in 1891, scholar Thomas Hodgkin recounts not only Theodoric’s great accomplishments, but also the unraveling of his empire upon his death. Softcover, 442 pages, 32 illustrations, six-page table of contents, indexed, #804, $25.

Even Santa Claus and Father Christmas were from pagan ideas. Seabrook also discloses pagan-rooted celebrations practiced around the globe today. The Great Boer War
Sir Arthur Conan Doyle wanted to know what war looked like up close. He volunteered and served in the British army’s medical corps, and was thus able to experience the conflict firsthand. His ensuing book was the first complete chronicle of the Anglo-Boer War. First published in 1902, Conan Doyle’s book became the standard by which all other histories of that conflict were measured. In it he laments that the Boers were a tougher opponent for the British than even the armies of Napoleon. Reset with two dozen rare pictures from the conflict. Softcover, 262 pages, #744, $15.

The War in South Africa:
Its Causes & Effects
John Atkinson Hobson’s prophetic book, first published in 1900, describes in detail the lies, deception, underhanded maneuverings, false propaganda—and the ubiquitous pressure groups—that lay behind the outbreak of the Second Anglo-Boer War in 1889. Faked “atrocity” propaganda, faked allegations of Boer barbarity, corruption, maladministration and the deliberate distortions and double-crossing in the “negotiations” that preceded the war are discussed. Hobson even shows how the lies also included fake stories of “Boer armaments build-ups,” that were portrayed as evidence of the “Boer threat.” He also spends time explaining how these allegations were spread across the English-speaking world and by whom. This new edition has been completely reset, updated and annotated. Also includes a new introduction, “South Africa 1899, Iraq 2003: The Awful Parallels,” by Arthur Kemp, which details who incited the Iraq War, using forgery, phony reports, deception and mass media lies—following the pattern used before the Second Anglo-Boer War. Softcover, 277 pages, #767, $22.

Victory or Violence? The Story of the AWB of South Africa
By Arthur Kemp. The dramatic story of South Africa’s far right Afrikaner Weerstandsbeweging (Afrikaner Resistance Movement) and its charismatic leader Eugéne Terre’Blanche. The AWB was responsible for the most serious campaign of bombing and violence in South Africa’s history as apartheid came to an end in 1994, and no understanding of that country’s history is complete without this updated eyewitness account. Softcover, third revised edition, 302 pages, #612, $22.
The Fall of the Congo Arabs

Written by one of the commanders of the European-financed force sent to end the thousand-year-old Arab slave trade in Africa, this astonishing book tells of the little-known Aran Campaign, or “Congo-Arab War” of 1892 to 1894. European intervention against the Arab slave trade started with the foundation in 1876 of the International African Association, which had as its aim the “exploration and opening to civilization of central Africa” and the “abolition of the trade in blacks.” The Arab slave trade in black Africans—which had started soon after the first Muslim incursions into north Africa in A.D. 640, and continued until the 1920s—had encroached all the way to central Africa. From there, Africans were sold into slavery by other Africans—many of them converts to Islam—or by Arab colonists, all directed from the Islamic slave-trading island outpost of Zanzibar on Africa’s east coast. Many important insights into the slave trade. Softcover, 136 pages, $14.

Lost in the Jungle

The third classic study of African wildlife, culture, and native tribes as they existed in the mid-1800s, written by the first European explorer to confirm the existence of gorillas and African pygmies. Following on from his Stories of the Gorilla Country and Wild Life Under the Equator, adventurer Paul du Chaillu describes in vivid detail African life before the advent of European colonization, and the astonishing practices, culture and environment which existed. This work shows, without prejudice or favor, Africa as it was, as seen by one of the first European explorers to set foot inside the interior of the Dark Continent. Read of witchcraft trials, and the tribe members’ astonishment at their first sight of a white man, their amazement at everyday items such as clothes, shoes, socks, hats, a music-box and a mirror, and of how the Apingi tribe appointed him king. Here is Africa in its natural state, teaching us the astonishing practices, culture and environment which existed. Softcover, 200 pages, $15.

Rage & Revenge: Torture & Atrocities in War & Peace

Tom Goodrich’s Rage & Revenge is a terrifying, up-close and personal look at what war and its aftermath are really like. For too long, the true nature of combat and the “peace” that follows has been concealed from the general public. Most who have never witnessed war naively assume that there are rules and laws governing such contests. As the reader of Rage & Revenge will quickly discover, nothing could be further from the truth. The fact is, all war is wild, chaotic, brutal and primitive. War is also the refuge where some of the most sick and sadistic among us may live out their darkest fantasies. In a fast-paced, no-nonsense writing style, Goodrich offers the reader a riveting glimpse at the true face of war in all its ugly reality and its strange fascination. Rage & Revenge speaks in lurid detail about how men, filled with rage from battle, and perhaps intoxicated by poisonous propaganda, turn into some of the most vile, sadistic creatures in the aftermath of the heat of battle. Covering such wars as the Indian Wars during the conquest of the American West, and the island hopping of the American military against the Japanese, Thomas Goodrich weaves a torrid tale of some of the most unspeakable, bestial crimes committed during the aftermath of battle. Softcover, 222 pages, $20.

It’s the foundation of the tension in the Middle East today that points toward further war and destruction. Here is the secret history of the Balfour Declaration, laid out in no uncertain terms and devoid of euphemism and political correctness. Those who have any serious desire to understand the sources of world conflict need this candid analysis about the machinations that brought the Balfour Declaration into being—and why. Softcover, 110 pages, $12.

The Kaiser’s Pirates: Germany’s Raiding Cruisers 1914-1915

This is the dramatic and little-known story of World War I, when the actions of a few bold men shaped the fate of entire nations. By 1914, Germany had ships and sailors scattered across the globe, protecting its overseas colonies and showing the flag of its new Imperial Navy. After war broke out, there was little hope that they could reach home to join the home fleet. Instead, these widely scattered, lightly armed vessels were ordered to attack Britain’s vital trade routes. Under the leadership of a few brilliant men, Germany unleashed a series of raids that threatened Britain’s war effort and challenged the power and prestige of the Royal Navy. An excellent book that TBR subscribers have ignored for too long. Hardback, 256 pages, 25 illustrations, $24.

But how much blame should Germany bear? And what about Austria-Hungary, England, Russia, Belgium, Italy and France? What was the complex set of circumstances that exploded out of control after the assassination of the archduke of Austria-Hungary? What other options were left to the nations involved? How did England and Germany get involved? And why were Russia and France so eager for a fight? Softcover, 60 pages, $6.

Benito Mussolini: My Life
By Benito Mussolini. Foreword by Richard W. Child, former U.S. ambassador to Italy. First published in 1928, Mussolini covers his life up to 1929. It contains his thoughts on Italian politics and also includes the text of some of his most inspirational speeches. It begins with a brief family history before moving on to its core subject: how Mussolini built the Fascist movement out of a militia, founded at the end of the World War I to avert Italy plunging into Bolshevik chaos. Mussolini spells out his ideological background, sparing no details on his socialist political origins. Along with Story of a Year, it makes up Mussolini's autobiography. Softcover, 212 pages, #712, $19.

Story of a Year: The Time of the Carrot & the Stick
This work is Benito Mussolini’s autobiographical account, written in the third person, of the dramatic events—as he experienced them—from the time of the battles of El Alamein until his rescue and reinstatement as leader of German-occupied Italy. It starts with a gripping recounting of the reasons for the first major Axis defeats in north Africa, the invasions of Sicily and mainland Italy by the Allies, and then moves on to discuss in detail the Grand Fascist Council meeting of July 1943—where Mussolini was deposed as leader by his own party and arrested. Also describes his experiences in prison, ending that section with an account of his rescue from his mountaintop prison by Skorzeny. Mussolini reveals intimate details of internal Fascist Party meetings, his relations with the Italian king and all the betrayals by formerly loyal colleagues. Softcover, 139 pages, #713, $15.

Final Solution: Germany’s Madagascar Resettlement Plan
Everyone “knows” the Germans had a “final solution” for their so-called “Jewish Problem.” But what they may not know is that Adolf Hitler’s final solution did not involve fictional homicidal gas chambers, bizarre medical experiments and blazing crematory ovens working night and day to incinerate victims. Instead, Hitler’s final solution offered Zionist leaders the island of Madagascar, the then relatively untouched, mineral-rich, barely populated, large and secluded island off the coast of east Africa. This new Madagascar was to be governed by a joint German-French board with representation granted to any government cooperating. Historian Ralph Grandinetti tells us what the Madagascar plan was and why it failed; which world leaders supported it—and which did not; and why the plan was eventually abandoned . . . plus lots more. Softcover, 90 pages, #626, $12.

Crimes Against the Wehrmacht
By Franz W. Seidler. Translated by Carlos Whitlock Porter. This volume provides a picture of the mortal dangers posed to every German soldier by the Red Army’s bestial conduct of partisan warfare in violation of international law. This book provides full documentation of over 300 Soviet war crimes committed from 1941 to 1942, accompanied by exact descriptions, many of them proven in detail by eyewitness statements and horrifying photo evidence. This volume was made possible by a systematic study of the archives of the objective Wehrmacht War Crimes Bureau, which investigated 4,000 war crimes. Even Goebbels’s propaganda ministry was compelled to keep silent about these atrocities for fear of the possible effect they might have on German morale. Only now is the full truth of the matter revealed. Horrifying mutilations, deliberate blindings, rapes, inconceivable tortures, sadism, massacres of wounded men in hospitals, cold-blooded slaughter—even cannibalism practiced by the Soviets on the bodies of German soldiers—are all proven in detail. More than 100 photographs help prove the point. Softcover, 481 pages, #733, $26.

For Germany: The Otto Skorzeny Memoirs
Otto Skorzeny was called “the most dangerous man in Europe.” One of the most awe-inspiring personalities of WWII, Skorzeny conducted exploits that made him a legend in his own time. His rescue of Benito Mussolini using gliders and the ensuing escape is more exciting than any fictional novel. The operation to kidnap Hungary’s Admiral Horthy will be told for centuries. This is the most detailed work on “Scarface Skorzeny,” who was also known as a gentleman, family man and dedicated comrade. Top-notch presentation: deluxe binding, hardback, 528 pages, 248 photos (many Skorzeny’s), the highest quality gloss paper, extensive footnotes and index, #429, $49.

The Stroop Report: The German Account of the Destruction of the Warsaw Ghetto
Translated, annotated and introduced by prolific historian Arthur Kemp. The Stroop Report is the official German account of the destruction of the Warsaw Ghetto from April to May 1943, prepared by the commanding officer of the operation, SS Brigade Leader Juergen Stroop. Divided up into three sections—an executive summary, copies of the official day-to-day combat reports and a photographic record—the report contains a number of fascinating insights into the brief and brutal conflict. Today, historians either do not know or prefer to suppress the surprising facts about the Warsaw Ghetto Uprising. Softcover, 232 pages, #677, $19.

Padre Pio:
A Catholic Priest Who Worked Miracles and Bore the Wounds of Jesus Christ on His Body

Canonized in 2002, Saint Pio of Pietrelcina, better known as Padre Pio, was a Franciscan Capuchin priest who bore the five wounds of Jesus Christ on his body for more than 50 years. Padre Pio was also a seer, psychic, prophet, miracle-worker, confessor, mystic, ascetic and missionary on a worldwide scale. Hundreds of books and articles have been written about Padre Pio. Lengthy articles about him have appeared in Newsweek, Time and The New York Times Magazine. As a young man, Padre Pio received the stigmata and worked many miracles. Those close to him insist he began to manifest multiple spiritual gifts, including healing, prophecy, extraordinary abstinence from both sleep and nourishment (Padre Agostino recorded that Padre Pio was able to subsist for at least 20 days at Verateno on only communion wafers without any other nourishment), the ability to read hearts, the gift of conversions and pleasant-smelling wounds. This beautiful little booklet tells Padre Pio’s story. Softcover, 86 pages, $6.

Historic Doubts on the Life and Reign of King Richard III

In 1787, amateur historian and well-known British writer Horace Walpole, a former member of Parliament, penned a book questioning the black portrayal of King Richard III. The outrageous accusations against the maligned king—who became the subject of a fanciful Shakespearean propaganda play—were dealt with one by one, like a barrister defending his client. Myths of Richard’s grotesque physical appearance to accusations he murdered his nephews, his wife, his brother and several members of the English court are refuted with common sense and real investigative work. This biography is a picture of man quite at odds with the one history has given us with for hundreds of years. This new edition, plus a new introduction by Revisionist historian John Tiffany, brings us up to date on the recent skeletal re-appearances that have helped shed new light on the real Richard and offers a more accurate portrayal of the king who has been entombed in the annals of history as one of the darkest characters of the medieval period. Did he kill “the Princes in the Tower”? Did he poison his own wife while lusting after his niece? Did he grab the throne illegally? Was he a brutal, deformed monster and tyrant? Was he a populist? All these questions and more are answered. When written, it dared to debunk the prevailing propaganda. Softcover, 125 pages, $8.45, $13.

Rivonia Unmasked! The South African State’s Case Against Nelson Mandela, 1964

First published in 1965, this book was the white South African government’s official version of the 1963-1964 “Rivonia Treason Trial” which saw eight top South African Communist Party (SACP) and African National Congress (ANC) leaders, Mandela included, sentenced to life in prison for their plan to seize power by violence in South Africa and turn it into a Marxist state. Evidence at the trial showed that the communist parties in the USSR, Algeria, China, Czechoslovakia and East Germany actively supported the plot and that the ANC and the SACP planned a bloody revolution. It also shows how the apartheid government was out of touch with reality, believing that the ANC did not represent the majority of blacks and that it was “only” communists who were a problem. It was a delusion that cost white South Africa dearly. Two appendices focus on Mandela’s position as a high-ranking communist and the Jewish support for the crisis facing European man that, if implemented, might provide our salvation. Softcover, 186 pages, $8.28, $16.

Nova Europa: European Survival Strategy in a Darkening World

By Arthur Kemp. Drawing upon history and two practical examples (the Afrikaner town of Orania and the Zionist state of Israel), the author forms an argument for the creation of, at first, local European communities and then, eventually, the creation of a European ethnostate arising from the chaos of a Third Worldized globe. It includes detailed steps and territorial proposals. It is a practical answer to the crisis facing European man that, if implemented, might provide our salvation. Softcover, 88 pages, $7.25, $12.

Black Flag: Guerrilla Warfare on the Western Border, 1861-1865—A Riveting Account of a Bloody Chapter in Civil War History

By Thomas Goodrich. From 1861 to 1865, the region along the Missouri-Kansas border was the scene of unbelievable death and destruction. Thousands died, millions of dollars of property was lost, entire populations were violently uprooted. It was here also that some of the greatest atrocities in American history occurred. Yet in the great national tragedy of the Civil War, this savage warfare seems a minor episode. Drawing from a wide array of contemporary documents—including diaries, letters, and firsthand newspaper accounts—the author presents a hair-raising report of life in this merciless guerrilla war. Bushwhackers and Jayhawkers, soldiers and civilians, scouts, spies, runaway slaves, the generals and the guerrillas all step forward to tell of their terrifying ordeals. Softcover, 192 pages, #817, $20.

An Authentic Narrative of the Loss of the American Brig Commerce

By Capt. James Riley. Here’s the incredible true story of an American crew captured by Arab slave traders after their ship was wrecked on the forbidding northwest coast of Africa. This account has fascinated and horrified readers since its first publication 200 years ago. Riley’s ship, the Commerce, was sailing from Gibraltar to the Cape Verde Islands when it was lost in fog and wrecked off the coast of the Sahara. There, they were captured by passing Berbers who seized the men, as was their custom, and took them deep into the blazing, nearly waterless Sahara desert. The book tells in shocking detail the events before and after their capture by these marauding Sahrawi Muslims, and their endless mistreatment—beatings, near-deadly heat exposure and starvation. Softcover, 352 pages, #742, $15.

Scalp Dance: Indian Warfare on the High Plains, 1865-1879

By Thomas Goodrich. From the Sand Creek Massacre in 1864 through Custer’s Last Stand in 1876 to the final defeat of the mighty Sioux and Cheyenne nations in 1878, Scalp Dance reveals the bloody, bitter clashes between two cultures—one bent on conquest, the other defending its land in the only way it knew how. Drawing heavily from diary accounts, letters and personal memoirs, a spell-binding tale of life and death on the prairie has been crafted. Individual fates are told, each its own drama. It also discusses the brutality with which the Indians treated their enemies, most of which is glossed over today in history books. Some of the most savage war in world history was waged on the American Plains from 1865 to 1879. As settlers moved west following the Civil War, they found powerful Indian tribes barring the way. When the U.S. Army intervened, a bloody and prolonged conflict ensued. Softcover, #210, 340 pages, $22.

To Hell or Barbados: The Ethnic Cleansing of Ireland

Here is the story of over 50,000 Irish men, women and children enslaved and shipped off to work on plantations in Barbados and Virginia from the 17th to 19th centuries. Sean O’Callaghan documents their transportation, the conditions in which they lived as slaves or servants, and their rebellions in Barbados. O’Callaghan’s description of 17th-century Barbados is a powerful portrait of a society as brutal, corrupt and unjust as anything the 21st century has to offer. In the 17th century, Oliver Cromwell encouraged the mass slaughter and enslavement of Irish men, women and children. Cromwell regarded the Catholic Irish as subhuman. Irish priests and nuns were hunted down like rogue wolves and Irish soldiers exiled to Spain or France, while rebels, widows and wee ones were enslaved side-by-side with much more expensive black Africans. An incredibly detailed book that refutes claims that only blacks were enslaved on plantations in the New World. Softcover, 248 pages, #754, $23.

The Stories of Our Pioneers: Their Heroic Deeds & Devoted Lives

By Augustus Lynch Mason, John Clark Ridpath and Trumbull White. Here is an absolutely amazing book, first written in 1904 by three American educator-historians, chronicling the heroic deeds and lives of the fathers and mothers of America. This beautiful reproduction has more than 100 B&W illustrations gracing its impressive pages. Much of this book would be considered too politically incorrect to make it into any modern history book today. Every single chapter and story in this 694-page book is filled with fact and excitement like you’ll never see in the dry, politically correct histories published in our modern era. Here is America’s history as viewed by the people of the early 1900s who were unafraid to celebrate our real heroes and revile the dastardly villains of the early days of our nation, at least a few of which we are sure you have never heard of. This book is great for adults, but also perfect for a younger person. A real gem of American history. Softcover, 694 pages, #761, $40.
The Adventures of John Jewitt: The Only Survivor of the Crew of the Ship Boston

Edited with an introduction and notes by Robert Brown, Ph.D. In 1803, the American ship Boston was attacked, seized and burned by Nootka Indians while anchored off the Pacific Northwest Coast of what is now Canada. This journal—written by one of only two survivors of the massacre, provides a fascinating insight into the author’s 28 months as a slave of the Indians, one of the few white men to endure such a lengthy ordeal and live to tell the tale. Slaves were the Indians’ most valuable property, and each Indian tribe kept hundreds of them. Jewitt began keeping a journal, carefully recording everyday details about the Indians, their lifestyle, customs, and traditions. His descriptions provided anthropologists with a unique insight into early Amerindian society, while the story of his exploits and eventual escape make for a riveting adventure story. Softcover, 168 pages, #792, $15.

George Washington’s Secret Six: The Spy Ring That Saved the American Revolution

When Gen. George Washington beat a hasty retreat from New York City in 1776, many thought the Revolution might be over. Instead, Washington rallied—thanks in large part to a top-secret group called the Culper Spy Ring. Washington realized that he couldn’t beat the British with military might, so he recruited a spy network to infiltrate New York to give him an edge. So carefully guarded were the members’ identities that one spy’s name was not known until the 20th century, and one remains a mystery today. Historians have, however, discovered enough to say that these six individuals turned the tide of the war. Here is their story told in a fashion that rivals any fictional spy novel. Softcover, 256 pages, #685, $28.

Indian Fighter: The Life of General George A. Custer

By Frederick Whittaker. Although Union Brevet Gen. Custer is mostly known for his “last stand” at the Battle of Little Bighorn in 1876 (he was a colonel again by then), this dashing military commander was in reality one of America’s finest generals. His career started with the Union Army during the Civil War, and ended after numerous highly successful campaigns in the Plains Wars against the Indians, where he was given the title of America’s “best Indian fighter.” This dramatic biography, first produced in the year of his death, draws upon family and other original sources and takes the reader on a swashbuckling ride through some of the greatest engagements of the Civil War (Bull Run, Gettysburg, and the surrender of General Robert E. Lee, amongst others) in which Custer played an important part, through to the many battles, shocking atrocities and wars against the Indians, which culminated in Custer’s death at the age of 36 in the prime of life. Softcover, 684 pages, #795, $30.

Hoover: An Extraordinary Life in Extraordinary Times

Here is the definitive biography of Herbert Hoover, one of the most remarkable Americans of the 20th century—a wholly original account that will forever change the way Americans understand the man, his presidency, his battle against the Great Depression and their own history. Author Kenneth Whyte vividly recreates Hoover’s rich and dramatic life in all its complex glory. He follows Hoover through his impoverished Iowa boyhood, his cutthroat business career, his brilliant rescue of millions of lives during World War I and the 1927 Mississippi floods, his misconstrued presidency, his defeat at the hands of a ruthless FDR, his devastating years in the political wilderness, his return to grace as Truman’s emissary to help European refugees after WWII and his final vindication in the days of Kennedy’s “New Frontier.” Ultimately, Whyte brings to light Hoover’s complexities and contradictions as well as his profound political legacy. Hardcover, deckled edge, 752 pages, #805, $35.

Among the Headhunters: An Extraordinary WWII Story of Survival in the Burmese Jungle

By Robert Lyman. Flying the notorious “Hump” route between India and China in 1943, a twin-engine plane crashed in a dense mountain jungle, deep within Japanese-held territory. Among the passengers was celebrated CBS journalist Eric Sevareid, an OSS operative who was also a Soviet double agent and Gen. Stilwell’s personal advisor. Against the odds, all but one of the 21 people aboard the doomed aircraft survived. But they fell from the frying pan into the fire. The shocked survivors discovered that they had arrived in wild country dominated by notorious headhunters who practiced slavery and human sacrifice. Japanese soldiers lay close by, too, ready to kill those they saw as enemies. Hardback, 304 pages, #738, $18.

Forsaken But Not Forgotten: America’s Most Shameful National Secret Revealed

It would be shameful if the U.S. government turned its back on one captured American. But between the Russian civil war, World War II, the Korean War, Vietnam and the Cold War, as many as 30,000 American soldiers, sailors, Marines, airmen and civilians were knowingly abandoned by this country’s leaders. Inside Forsaken But Not Forgotten: America’s Most Shameful National Secret Revealed, longtime author and researcher Philip Rife presents the government’s rationale for abandoning so many of America’s military men behind enemy lines. You can decide for yourself whether these were the right actions. Rife felt an obligation to tell this story for the abandoned Americans, their parents, brothers, sisters, wives, children and other concerned Americans. It’s a story every American should know. The BARNES REVIEW is proud to publish the first edition of this important book. Softcover, 89 pages, #812, $15.
John Tyler: America’s First Accidental President
Author Frank Jackson gives us the fascinating history of John Tyler, America’s first “accidental” president, who assumed the presidency after the death of William Harrison. Tyler served in a tumultuous era, with fractious debate waging over slavery, banking power, tariffs on foreign goods, the annexation of Texas and relations with Britain and China. High on the list of issues was the possibility of domestic war breaking out during his term. Softcover, 25 pages, #641, $6.

War Is a Racket
By Gen. Smedley Butler. This anti-war speech by the two-time Congressional Medal of Honor recipient exposes the massive war profits that benefit the few at the expense of the many. Throughout his distinguished career in the Marines, Butler demonstrated that true patriotism does not mean blind allegiance to bad government policies. Instead, true patriotism requires that you review every decision made by the higher ups. Sections include: War is a Racket; Who Makes the Profits?; Who Pays the Bills?; How to Smash this Racket; and To Hell with War! Softcover booklet, 40 pages, #589, $5.

The Ford Philosophy: Writings on Business & Money
By Henry Ford. The Ford Philosophy is much more than just excerpts from the writings of Henry Ford, the genius-inventor of the American automobile. This book comprises Ford’s philosophy, his guiding set of principles and a road map for setting America on the path to greatness. In 64 pages, Ford cogently argues the goal of business should be to help the working man in America. Laborers have just as much right to the fruits of their labor as today’s billionaire plutocrats and soft-handed executives. Saddle stitched, 64 pages, #668, $7.50.

What Soldiers Do: Sex and the American GI in Occupied France
How do you convince men to charge across mined beaches into deadly enemy fire? Do they appeal to their patriotism, their desire to end tyranny? If you’re the U.S. Army in 1944, you dangle the lure of French women, waiting on the other side to reward their liberators. Unfortunately, nobody told the women of France. Drawing on news reports, propaganda, training materials, documents, diaries and memoirs, Mary Louise Roberts tells how the U.S. military systematically spread—and exploited—the dangerous myth of French women as promiscuous “harlots.” Softcover, 368 pages, #770, $22.

The Devil’s Handiwork: A Victim’s View of “Allied” War Crimes

FDR: My Exploited Father-in-Law
The author, Curtis B. Dall, was FDR’s son-in-law and had an office in the White House. Thus he had an insider’s view of who came to see FDR and Eleanor. Dall was also a Wall Street insider and knew their tactics. The book is loaded with personal anecdotes of the people Dall met. This included FDR, Eleanor, Sara Delano, Bernard Baruch, Hopkins, Morgenthau Jr., Harry Dexter White, Warburgs, Astors, Rothschilds, Lehmans and more. In the end he portrays FDR as a man who began his career as a ladder-climber and ended up the most exploited president in U.S. history. Softcover, 288 pages, #696, $25.

FDR: The Other Side of the Coin—How We Were Tricked into World War II
The book deal with FDR’s clandestine diplomatic negotiations in the months before U.S. intervention in WWII. The author, former Rep. Hamilton Fish, documents how FDR refused every prewar peace concession the Japanese offered, and later refused peace initiatives from the Germans. In his analysis of the geopolitical effects of the Yalta agreements, Mr. Fish traces the causes and roots of the Korean and Vietnam wars to Yalta. Softcover, 255 pages, #419, $18.

A Matter of Honor: Pearl Harbor—Betrayal, Blame and a Family’s Quest for Justice
Anthony Summers and Robbyn Swan unravel the mysteries of Pearl Harbor and expose the vile scapegoating of Adm. Husband Kimmel. After the attack, Adm. Kimmel, commander-in-chief of the Pacific Fleet, was relieved of command, accused of negligence and dereliction of duty—publicly disgraced and blamed for the carnage. The evidence against him was less than solid. High military and political officials had failed to provide him with vital intelligence. Later, they covered it all up. Includes 40 black-and-white photos. Softcover, 544 pages, illustrated, #762, $35.
By Victor Thorn. The evidence compiled points a finger at Israel's Mossad as a major player in the Sept. 11, 2001 terrorist attack on America. “We already know why 9/11 was done,” Thorn said, “and that the WTC towers were demolished. But most everyone wants to shy away from who ultimately did 9/11.” In the author’s opinion, Israel played a central role in the 9/11 terrorist attack, and he presents his body of evidence. Softcover, 123 pages, #789, $15.

9/11: Made in Israel—The Plot Against America

What this Victor Thorn book makes clear, and what many 9/11 “truthers” don’t know, is that a massive deception and cover-up exists not only in the mainstream media, but in the so-called 9/11 truth movement as well. It is true that 9/11 was an “inside” job, and criminal elements within the U.S. government were undoubtedly involved. But 9/11 was much more. It was an “outside” job also, ultimately facilitated by multiple, well-coordinated Zionist and Jewish factions. Considering the fact that the rogue state of Israel has a prior criminal record of perpetrating just such a crime—the June 8, 1967 attack on the USS Liberty and the failed bombing of the WTC in 1993—the line of questioning in this case is by no means outlandish or “anti-Semitic.” Softcover, 138 pages, #788, $15.

UFOs & Aliens: The Complete Guidebook

By Col. Lochlainn Seabrook. This is the ultimate primer, not only for beginners, but also an invaluable resource for veteran ufologists. Here is a one-of-a-kind book that’s packed with just about everything you’ll ever want to know about the possibility of extraterrestrials and their out-of-this-world craft. Well researched, the book includes detailed eyewitness descriptions, a history of UFO sightings, 61 real casebook studies, compelling evidence, a list of NASA UFO images, chapters on alien abductions, crop circles, Men in Black and the alleged worldwide UFO coverup. The foreword is by Nick Pope, known as the “Real Fox Mulder.” Softcover, 346 pages, #774, $22.

White Revolt! An American National Socialist History

By Leon Dilios. Here is the true story of National Socialism in the U.S. presented through the personal experiences of its members. Beginning in the 1960s, the author was an eyewitness to George Lincoln Rockwell’s mass rally in Chicago and “White Power March.” Following Rockwell’s assassination, Frank Collin opened “Rockwell Hall,” in memory of the fallen commander, headquarters of the National Socialist Party of America. Over the next 10 years, NSPA activism made world headlines and generated a landmark free speech Supreme Court ruling still studied by law students today. Riots, street battles, bombings, shoot-outs, killings, arrests and legal prosecutions culminated in “Operation Skokie,” when uniformed stormtroopers threatened to “invade” the Jewish suburb with swastikas flying, unless their rights to free speech were restored. Their success in that case was celebrated with a rally, where police battalions, Marxist mobs and Brown Shirts had a tense confrontation. Told through National Socialist eyes. Softcover, 312 pages, #826, $20.
The Story of the Nations: Germany

Germany is the heart of Continental Europe, and influences have gone forth from her which have deeply affected all of her neighbors. This volume traces the life of this powerful nation from the time when imperial Rome was baffled by her valiant Hermann, down to the hour when France fell before her, and the idea of empire became a power for peace. The absorbing story begins with pictures of the surgings of the nations, the Huns, the Slavs, the Goths, the Saxons and the Franks. It tells how the heroes of old brought the people to its independent life, recounts the struggles of the various Teutonic tribes among themselves, and of all of them with their neighbors. First published in 1887, this meticulous softcover reproduction of Sabine Baring-Gould’s original work includes more than 100 pertinent illustrations. Softcover, 437 pages, #751, $20.

**The R.M. West Trilogy**

**The Nation as Race & Myth**

By R.M. West. West’s historical and political novel brings into focus the challenges facing the European race in the present and future, as well as examining its sustaining myths. Mr. West says in the foreword to the book: “The modern world is impoverished by its lack of myths. Our ancestors knew the power of myth, and we neglect that power at our peril. A myth can transform the universe with something even more powerful than facts—an idea.” Required reading. Softcover, 213 pages, #532—regularly $18.

**The Revolt Against Empire**

This biting political novel is the second in R.M. West’s trilogy. The three books together are, the author says, an experiment in new nationalist writings. Neo-nationalism is an expanded version of nationalism. Its allegiance is no longer to the abstract notion of a state, but rather to the earthly realities of race and the unique myths and culture that nourish it. It is indisputable, says West, that a race is lost as a coherent whole if it reaches a point in its history where it no longer recognizes as vital the emblematic images of its founding myths. In a clever and engaging fashion, West crafts the book around military dispatches of the year 2019 from a war between “the Globalist Empire” and the Euro-American Secessionist forces. Between chapters, fictional historian John Henry York fills us in on the events of the era. His diary entries predict a world that may be in our future. Softcover, 195 pages, #703—regularly $15.

**The Wars & Other Related Events**

This last book of R.M. West’s nationalist trilogy was written as a decisive warning: Something of great weight and bulk is hurtling at breakneck speed toward us. This is not a cartoon cliché—our culture is in a shambles. And now, our race, our last refuge, our final line of resistance is under assault. “Stop!” That is what the anonymous narrator of this final book said before the novel began. He was among the first to see the galloping意识到. “Stop!” That is what the anonymous narrator of this final book said before the novel began. He was among the first to see the galloping horse named “Destruction.”

THE USSR remains one of the least understood of all societies despite its having only existed in the 20th century. It stands as the great embarrassment of the globe’s liberal elite and they do all they can to mystify their role in creating and supporting this totalitarian disaster. One of the reasons it remains so misunderstood is that very few can wrap their heads around depravity of this magnitude. Josef Stalin once said in an article appearing in Pravda that, under his rule, “life had become more joyous and carefree.” There’s a level of dissociation here that only a handful can penetrate and still retain their sanity. Luckily, The Barnes Review (TBR) has an expert author who has no difficulty with discussing either depravity or dissociation—or in challenging those who insist that Stalin “wasn’t as bad as we have been told,” claiming he was not responsible for the terrors that occurred under his rule or that he had somehow finally “caught on” to the true nature of the Soviet state.

The Soviet Experiment: Challenging the Apologists for Communist Tyranny connects the dots so many have failed to connect in the past. The author, Dr. Matthew Raphael Johnson, the former editor and currently a member of TBR’s Contributing Editorial Board, has, at great cost to himself, spent his adult life specializing in the hidden aspects of Russian history and its connection to nationalism. As always, he pulls no punches. He’s contentious, he’s offensive, he’s difficult, he’s challenging—challenging everything that needs to be challenged to explain the catastrophe of the Marxist Soviet Union and the ideological fog behind which it hid for so long. He explodes myth after myth on the Soviet enigma, rendering it no longer mysterious. With primary source materials never before translated into English, this book is a necessity for any serious historian and truthseeker. Real history is not propaganda intended to shape the views of unsuspecting readers toward the current projects of the masters of the media. Unfortunately, Americans share a vast ignorance of the past and, as such, are easily manipulated by the special interest elite.

Real history is more than the distorted, liberal, politically correct lies or half-truths you get in virtually every other historical periodical published today. Real history is the stuff of mystery and intrigue, romance and tragedy, cowardice and courage, conspiracy and idealism, good and evil.

In The Barnes Review, you’ll read vignettes of Man, from the prehistoric to the present day; from forgotten civilizations to first person accounts of WWII and the Cold War; from the attacks of Sept. 11 to the immigration crisis in Europe. There is no more interesting magazine published today, nor a more important subject than REAL history.

Our purpose—to bring history into accord with the facts—was first enunciated by our namesake, Dr. Harry Elmer Barnes. It was he who began the crusade to accomplish this noble goal. No cause is more important to the survival of civilization.

The Jewish Mafia: The Great International Predators

History of Anti-Semitism

By Hervé Ryssen. Translated by Carlos Porter. The history of Judaism is that of a people or sect constantly at war with the rest of humanity. According to prophecy, after the great war against the last enemies of Israel, the Messianic times will be a blessed time for the Jews. All the Earth will be unified, and the Jews will be recognized by all as God’s chosen people. The Pesachim and Sanhedrin treatises of the Babylonian Talmud assure us that, in the times of the Messiah, the treasures of the Jews will be so immense that “it will take 300 she-asses to carry the keys.” To succeed in reaching this universal peace (pax Judaica), and “hasten the coming of the Messiah,” fanatical Jewish sects must therefore work unceasingly to destroy all the differences between men—nations, races, religions and local customs. It is this messianic tension which motivates their acts and multiplies their energy. It is on the ruins of the nations that the long-awaited world government will be erected, imposing a definitive peace upon humanity. But what is the real truth, sans the religious prophecy? Is anti-Semitism created simply because of the supremacist teachings of Judaism? Find out. Softcover, 453 pages, #768, $35.

Israel’s Billions: Jewish Swindlers and International Financiers

Jews have been expelled from every country they have ever lived in, at all periods of history, even when they were not massacred. They have been booted out by the Egyptians, the Babylonians, the Greeks, Romans, Christians and Moslems; always and everywhere. Every time, the principal reason invoked was usury, that is, lending at abusive interest rates, ruining peasants and tradesmen while disproportionately enriching the Jewish communities in all the cities. The receiving of stolen goods is another accusation frequently mentioned in the texts, as well as their manifest hatred of the church and the goyim in general. All over Europe, they engaged in smuggling, debasing the coinage, washing ducats in acid, using yellow arsenic to give brass the color of gold, to swindle and deceive the Christians in a thousand ways. Very little has changed in this regard, except that these swindles have acquired a scope unprecedented in history since the turn of the 20th century. In Israel’s Billions: Jewish Swindlers and International Financiers, author Hervé Ryssen details just how Jewish bankers, businessmen and powerbrokers are stealing the wealth of the people of the world. Included are chapters on the biggest financial rip-offs in history, the VAT frauds, the CO2 swindle, advertising and insert frauds, fake bank transfers, the Talmud, pyramid rackets, Bernie Madoff’s flimflams, insider trading swindles, today’s super-predators, the Cosmopolitan Project—and even more. All together, this book comprises the most complete and precise source for exactly how the Jewish community—from its earliest incarnations—has worked to fleece the goyim among whom they dwell. False Adverts, Fake Bank Transfers, VAT Fraud, Eurocanyon Affair, Rubens Levy Affair, Great CO2 Swindle, Swindling with Impunity, Corruption of the Police, Corruption of the Legal System,
Understanding the Jews, Understanding Anti-Semitism

By Hervé Ryssen. Translated by Carlos Porter. Understanding the Jews, Understanding Anti-Semitism is the perfect companion to the History of Anti-Semitism above. Everyone talks about the Jews, but very few people really know them. Who are they? What makes them different from everyone else? These questions are of increasingly vital importance since the Jewish people play a central role in the evolution of humanity. Marx, Freud and Einstein are often cited, who long personified the genius of Judaism. Today, the Jewish contribution to world culture is an extraordinarily rich one. Their love of equality and tolerance and their unending struggle for human rights make them the world’s foremost defenders of democratic ideals. How then, can one explain anti-Semitism? Softcover, 90 pages, #763, $15.

Satan in Hollywood: Anti-Christian Propaganda in Film

On television and in film, Christians are most frequently depicted as narrow-minded, intolerant racists and bigots, if not actually rapists or murderers. The Catholic clergy is almost always depicted as a place of concealment for sadists and mental defectives. Hundreds of films contain anti-Christian smears, and the list gets longer every year. Ryssen identifies a large number of these films and details their anti-Christian messages and imagery. These vile themes even appear in children’s cartoons! The evidence speaks for itself: Christianity—and most particularly the Catholic Church—is under attack in the Hollywood film industry in ways that have never been used against Islam or Judaism or any other community in history. Decade after decade, these messages have been growing in intensity, becoming increasingly explicit and evermore aggressive. It is as if the weakening of Christianity in the West were merely exacerbating a repressive, explosive hatred too long contained. Since 2005, Hervé Ryssen has published 10 books, each containing hundreds of footnotes and references, on matters of crucial importance to an understanding of the 20th and 21st centuries: the religious origins of globalism; the cosmopolitan ideal in literature and film; the origins of psychoanalysis; the prevalence of hysteria, homosexuality and feminism; the hidden face of communism; the history of anti-Semitism; the causes of World War II; the great transnational mafias and swindlers; and the vision of the “End Times” in the great religions, etc. Satan in Hollywood: Anti-Christian Propaganda in Film (softcover, saddle-stitched, 59 pages, #850, $10).

Psychoanalysis of Judaism

There is no doubt—despite claims of rampant “anti-Semitism”—that Jews are possibly the most successful religious and cultural group on the planet. In America, they are the kings of media, Hollywood, the music industry and Wall Street. They have the most powerful and determined lobbies in the world, working not only for their own national interests, but the interests of the state of Israel. Israeli leaders have openly admitted that they “own” the U.S. Congress—and nobody will argue against that with a straight face for very long. So what makes Jews so successful? How have they been able to wield such influence over the generally non-Jewish nations in which they dwell? How have they managed to convince so many that their suffering over the centuries is worse than that of other ethnic and religious groups? How have powerful Jewish organizations managed to get the world’s biggest and most lucrative tech companies to restrict discussion of such topics on the Internet? If we all can agree that Jews have had a great impact on history, would it behoove us to understand what it is about their religion and/or their culture that makes them so resilient and so unified? In short, what makes the Jewish mind tick? In Psychoanalysis of Judaism, author Hervé Ryssen—often attacked for his forthright books on the topic of Judaism—delves into this very subject in a book unlike any other you have ever read on the Jewish psyche. General topics covered include: How can guilt be used to control people; how many religious Jews believe they are “chosen” people; the parent-child relationship; what makes them laugh; their powerful revolutionary spirit; their attitudes toward Christianity; their cosmopolitan mentality; anti-Semitic paranoia; their love affair with communism; alleged inferiority complexes; Oedipal relationships; the Talmud, Kabbalah and the “art” of psychoanalysis itself. This and so much more are discussed. Softcover, 461 pages, #846, $30.

With Hitler on the Road to Power:
Personal Experiences With my Leader

**By Otto Dietrich**

This work, written by Adolf Hitler’s chief of press in 1934, details the three tumultuous election campaign years from 1930 through to the coming to power of the National Socialist German Workers Party (NSDAP) in January 1933. The author formed part of Hitler’s inner circle and campaign staff during this period—which included six full elections in two-and-a-half years—and later went on to become the chancellor’s press officer. Softcover, 106 pages, #799, $15.

**Hitler on the Jews**

That Hitler spoke out fanatically against Jews is well known. That this is the first book ever to compile his exact words on this incendiary topic is astonishing. Of the millions of words written on Hitler, virtually none quote Hitler’s exact words on this controversial topic. The reason for this is clear: Those in media, government and universities must present a simplistic and sanitized picture of Hitler as an insane anti-Semite, a bloodthirsty tyrant and the embodiment of evil. This caricature of the truth is extremely useful—if for no other reason than to batter anyone critical of Zionist interests. Hitler’s real words and ideas are far more complex than most authorities admit. Hitler was a well-read man. He had a broad knowledge of history, culture, religion, human biology and social evolution. But this portrayal does not suit those in power today. They need the public to think of him as a foaming-at-the-mouth demagogue. To accomplish this goal, they need to ensure that no one reads his actual words. Until now, they have succeeded. Softcover, 200 pages, #847, $16.

**Hitler’s Revolution**

Ideology, Social Programs, Foreign Affairs

**By Richard Tedor**

Defying liberal democracy, Adolf Hitler transformed Germany into an authoritarian state advocating sovereignty of nations, advancement of labor, preservation of the white race, and commerce based on exchange of wares to replace the international gold standard. Becoming chancellor in 1933, he tackled his country’s bankruptcy, massive unemployment, Communist subversion and foreign domination. His social economic programs and diplomacy restored German prosperity and independence in three years, despite opposition from Western democratic leaders. Penetrating the shroud of vilification draping this controversial figure, our study draws on nearly 200 published German sources, many from the National Socialist era, plus documents from British, U.S. and Soviet archives, to describe not just what Hitler did, but why. It also reveals democracy’s genuine war aims, a taboo subject for historians, in the ensuing world war against Germany. Challenging the status quo version of the period, here is the book for the student of history who senses that something is missing and seeks answers. Illustrated. Softcover, 293 pages, #646, $15.
Western civilization is in desperate peril. White people—our volk—are in trouble. The question of the day—and very likely the question of the millennium—is whether Europe will survive—and, with it, its American, Canadian, Australian and South African cousins—and, if so, how? Seeking to answer those questions is a very important new book, *White World Awake! Stopping the Planned Extermination of Our Volk*. Those who seek the truth will find the truth in the pages of this book, and those looking for a practical plan of action will find that as well.

For too long, observes the author, white people have fought among themselves. The European Union and NATO are failed efforts to correct that situation. Europe faces an existential threat with tsunamis of unassimilable Africans, Middle Easterners and Asians swarming in. Russians, Britons, Frenchmen, Germans and Poles, Serbs and Croats, Romanians, Finns and Greeks, Spaniards and Hungarians are all in the same rickety boat. The time has come for Europe to speak with one voice on military and foreign policy matters, while it is equally necessary for each nation and ethnic group to preserve its distinctive language and culture, and for historical injustices to be discussed openly and honestly. A Eurasian Federation is proposed, which, like Old America, will not interfere in other parts of the world, except to provide humanitarian aid and ensure the safety of such places as Armenia and Georgia against any immigration threat. Traitor politicians who see no problem in allowing Europe and other white nations to be transformed into mixed-race caliphates—a dream of the mysterious Richard von Coudenhove-Kalergi—will be voted out of office. Many of the solutions apply equally to the rest of the world. “Close the borders! Stop the flood!” is key not only for Europe, but America and all other white areas of the world. Thus, Graf lays out a practical 10-step program to stop the genocide of the West starting with Europe, the cradle of white Western civilization.

This is a book that needs and deserves to be in the hands of every concerned person who cares about the future of the Western world. Softcover, 540 pages, #753, $35.
**Revisionist Books on World War II**

**My Revolutionary Life**
By Leon Degrelle. *My Revolutionary Life* has never appeared in print as a book before—and is available only from TBR. Here is Gen. Leon Degrelle’s autobiographical account of his daring escape from war-ravaged Germany in 1945 and his adventures after the war. Sentenced to death by the Belgian government after the Axis surrender, Degrelle escaped by flying from Norway and crash-landing in Spain. The great Belgian Waffen-SS officer also recounts his experiences as a rising nationalist politician, the political situation in Europe before WWII, his battle against the Bolsheviks before and during WWII, the last days of the Reich and his daring escape. Softcover, 217 pages, #714, $27.

**Not Guilty at Nuremberg: The German Defense Case**
Uninformed people consider the "Nuremberg War Crimes Trials" as the ultimate proof of the guilt of the German leadership before and during World War II. The transcripts of the proceedings, however, tell an entirely different story. This volume contains the defense arguments put forward by the main defendants at the trials. It shows that the trials broke every legal precedent and procedure of evidence in the book. Defendants were refused the right to cross-examine “witnesses,” blatantly forged documents were accepted as genuine without question, and evidence indicating torture of suspects was struck out by order of the judges. In addition, the blatant contradictions in the prosecution arguments (which saw the Germans charged with the exact same behavior as exhibited by the Allies during the war), combined with the persuasive counterarguments from the defendants themselves, provides a fascinating insight into the 1946 lynch-mob proceedings which masqueraded as “trials.” Softcover, 60 pages. #825, $10.

**Summer, 1945: Germany, Japan and the Harvest of Hate**
Here is the truth about WWII in graphic detail. We Americans consider ourselves to be more noble and decent than other peoples, and consequently in a better position to decide what is right and wrong in the world. What kind of war do civilians suppose we fought, anyway? We shot prisoners in cold blood, wiped out hospitals, strafed lifeboats, killed or mistreated enemy civilians, finished off the enemy wounded, tossed the dying into a hole with the dead, and in the Pacific boiled the flesh off enemy skulls to make table ornaments for sweethearts, or carved their bones into letter openers. We mutilated the bodies of enemy dead. We kicked out their gold teeth for souvenirs. We topped off our saturation bombing of enemy civilians by dropping atomic bombs on two nearly defenseless cities, thereby setting an all-time record for instantaneous mass slaughter. As victors we are privileged to try our defeated opponents for their crimes against humanity. Softcover, 342 pages, #818, $26.

**Hellstorm: The Death of Nazi Germany, 1944-1947**
It was the most deadly and destructive war in human history. Millions were killed, billions in property was destroyed, ancient cultures were reduced to rubble—WWII was truly man’s greatest cataclysm. Thousands of books, movies and documentary films have been devoted to the war. But there has never been such a gripping retelling of the story as one will find in *Hellstorm: The Death of Nazi Germany*. Throughout this book readers will see what Allied airmen saw as they rained down death on German cities; or the reader will experience what those below felt as they trembled in their bomb shelters awaiting death. The reader will view the horrors of the Eastern Front during the last months of fighting, through the mud, blood and madness. Readers will witness for themselves the fate of German women as the rampaging Red Army raped and murdered its way across Europe. Learn about the worst nautical disasters in history which claimed thousands of lives, the greatest mass migration known to man in which millions perished and the fate of those wretched victims in postwar death camps. Softcover, 390 pages, #549, $30.

**War Crimes Trials & Other Essays**
By Carlos Porter. Approximately 10,000 “War Crimes Trials” have been held since 1945. Trials of Japanese military personnel ended in 1949, yet “war crimes trials” of Germans and Eastern Europeans continue to date. Almost invariably, the charge is “violation of the laws and customs of war,” derived from international conventions signed at the Hague in 1899 and 1907. That these trials have little or no basis in law is clear from the wording of the treaties which are said to have been violated. The illegality of war crimes proceedings include the admissibility of oral and written hearsay; the introduction of the concept of conspiracy into international law (unknown prior to 1945); the total lack of any pre-trial inquest or forensic evidence; and trial before a court itself composed of actual war criminals. The
issues surrounding the war crimes trials are numerous and complex; discussion and criticism of what was done should be welcomed by all who hope for a continuing development of international law. But what should have been done instead is a problem generally ignored by those who condemn what was actually done. The alternative is a fair trial before an impartial court under proper procedures and rules. Softcover, 234 pages, #824, $24.

Alfred Rosenberg: Memoirs

Here are the sensational memoirs of the Third Reich’s leading ideologue, Alfred Rosenberg. These memoirs contain a no-holds-barred overview of Rosenberg’s political life and give us some astonishing revelations about the Communist revolution in Munich, the relationship between Christianity and National Socialism, his prediction of race violence in America, the Strasser brothers, the Alpine revolt, Himmler’s Ahnenerbe, why Rosenberg was omitted from Hitler’s first cabinet, what Rosenberg thought about euthanasia, his views on the Jews and more inside information on the Reich. Softcover, 214 pages, #707, $15.

Rudolf Hess: His Betrayal & Murder

Following his capture by the Allies in Scotland—on a mission to try to make peace between Germany and England—Germany’s Rudolf Hess remained a prisoner of the Allies for 46 years until he “died” at age 93 in Spandau Prison. The purpose of his mission—and his life at Spandau—was kept secret. But that changed with the publication of this book by Abdallah Melaouhi. Melaouhi spent five years with Hess, acting as Hess’s medical aide at the Military Prison in Spandau, up until Hess’s death. Melaouhi got to know Hess as a friend. For years he kept silent about his famous patient. But now—in this exclusive TBR English edition—Melaouhi gives us the entire story about Hess’s time in Spandau, his brutal murder, the plot to cover it up and the effort to suppress the publication of this book. Softcover, reproductions of many documents Hess smuggled out of Spandau (translated into English), rare photos, three appendices, 291 pages, #643, $25.

Holocaust High Priest

By Warren Routledge. For many years, Elie Wiesel was the face of the holocaust, appearing on “Oprah” and any other venue. After all, he was a holocaust survivor. Large crowds listened intently as he described his time in WWII “death camps” and how he miraculously survived them all. But, for just as many years, Holocaust Revisionists have been exposing this fraud, pointing out that his writings show gross ignorance of the camps in which he was allegedly incarcerated and poking holes in his tall tales. This volume eviscerates the Wiesel myth, showing that the man’s books and testimonies are pure fiction. Softcover, 474 pages, #711, $35.

Hermann Goering: The Man & His Work

This, the only official biography of Hermann Goering, was a bestseller in Germany and in the English-speaking world when first published in 1938. Written by one of Goering’s senior staff members, Erich Gritzbach, this book details the many astonishing services that Goering rendered the German state. Besides recreating the German air force once the shackles of the Versailles Treaty were shaken off, his other achievements are less famous. This book contains the original English version plus all 57 original photographs and the 1938 introduction written by Sir Robert Hamilton Bruce Lockhart. In addition, it contains a brand new introduction by Arthur Kemp that updates Goering’s career after the book was published. Softcover, 279 pages, 57 photos, new intro, indexed, #639, $25.

Stalin’s War of Extermination, 1941-1945

By Joachim Hoffmann. Perhaps the best book yet written on Josef Stalin’s plan for a world revolution by conquering Europe in a war of complete extermination. When published in Germany in 1995 the book became a bestseller—yet it was viciously censored in the rest of the West. Luckily, Hitler launched Operation Barbarossa and thwarted Stalin’s plan. Hardback, #282, 415 pages, $35.

World War Two Turning Points: The Secret Decisions, Forgotten Blunders and Cover-Ups That Really Determined Its Outcome

History is made, sometimes, by the strangest quirks of fate, not hours of planning at the strategy table. A forgotten briefcase decides the fate of millions of people? The mighty battleship *Bismark* was actually sent just to be sunk? A nuclear-tipped ICBM was almost launched at New York? Who was the failed soap factory owner who sealed the fate of the Reich? What about the enemy balloon that shut down America’s nuclear program? One man’s assassination was all that prevented Japan from bombing the Panama Canal? And another man’s death cost Italy victory in North Africa? Here’s an alternative history of World War II covering the obscure men, bizarre weapons, forgotten blunders and near misses that really determined the outcome. Softcover, 284 pages, $18.

Into the Darkness: An Uncensored Report from Inside the Third Reich at War

By T. Lothrop Stoddard. A leading American journalist travels to Nazi Germany in December 1939, arriving in wartime Germany where all the lights are blacked out in preparation for an English or French bombing campaign. Stoddard’s provocatively titled book refers to the eerie experience he felt upon first encountering this total blackout. Stoddard was sent to report on wartime conditions in Nazi Germany—at a time before the U.S. became involved in the war. Due to his leading work in the areas of racial history, racial science and eugenics in America, he was granted unprecedented access to the inner workings of the National Socialist government and interviewed Hitler, Goebbels, Himmler, Ley, Frick, Darré, Fischer, Lenz, Günther, and more Nazi leaders. Softcover, completely reset with new illustrations, 205 pages, $15.

Mussolini’s War: Volume I The Triumphant Years

Among the great misconceptions of modern times is the assumption that Benito Mussolini was Hitler’s junior partner, who made no significant contributions to the Axis effort in WWII. That conclusion originated with Allied propagandists determined to boost Western morale. The Duce was constantly ridiculed, his successes pointedly demeaned or ignored. Mainstream historians love to say that Italy’s navy, air and land forces were nothing more than a bungling bunch of clowns. So effective was this campaign of lies that it became postwar history, and is still generally taken for granted, even by well-informed students of WWII—and even by Italians themselves! But a closer examination by historian Frank Joseph of often neglected, recently disclosed materials presents a different picture. They shine new light on just how effective Italy’s armed forces truly were. These and numerous other disclosures combine to debunk lingering propaganda stereotypes of the inept, ineffectual Italian armed forces and their allegedly inept commanders and supreme leader. That dated portrayal is rendered obsolete by *Mussolini’s War: Volume I—The Triumphant Years*. Softcover, 275 pages, $27.
Thought-Provoking Books from TBR

Updated! The Ball Report: WWII Air Reconnaissance Photos Disprove the Holocaust
By John C. Ball. By examining air reconnaissance photographs taken by the Allies of Auschwitz and other camps, the author brings his formidable knowledge to bear to show that: Allied air photos of Auschwitz show that there were no “gas chambers,” no “burning pits,” no “continuously smoking chimneys,” no “Zyklon-B insertion holes” etc. New edition contains the 16-page “Ball Report.” Softcover, 138 pages, #698, $12.

Debating the Holocaust: A New Look at Both Sides
By Thomas Dalton. Issues discussed include: No trace of a “Hitler order” to exterminate Jews. Key witnesses have falsified or exaggerated important aspects of their stories. Major death camps—Belzec, Chelmno, Sobibor, and Treblinka—have all but vanished. Little evidence of disturbed earth for mass graves. Few remains of the millions of alleged victims—neither bones nor ash. Mass-gassing with Zyklon-B nearly impossible. Mass-gassing with diesel exhaust practically impossible. Wartime air photos show none of the alleged mass-cremations. The 6 million number has no basis in fact. Trends in Jewish world population suggest many fewer than 6 million lost. The current 1 million “survivors” implies few wartime deaths. Ghettos and concentration camps served for ethnic cleansing and forced labor. In this book, for the first time ever, the reader can judge for himself with arguments and counter-arguments. Softcover, 334 pages, #815, $25.

An Auschwitz Doctor’s Eyewitness Account: The Tall Tales of Dr. Mengele’s Assistant Analyzed
By Carlo Mattogno and Miklós Nyiszli. Everyone knows Dr. Josef Mengele, the evil doctor who sent countless Jews to the gas chambers, performed cruel, pointless medical experiments, and gave twin research a bad reputation. But how do we “know” about his many diabolical deeds? The most important source for what Mengele is said to have done comes from the Hungarian Miklós Nyiszli, a forensic physician who claims to have been Mengele’s assistant. In 1946, he published a book about his traumatic experiences while serving in Auschwitz. His research results leave the reader judge for himself with arguments and counter-arguments. Softcover, 484 pages, #813, $25.

The Holocaust: An Introduction—Exploring the Evidence
By Thomas Dalton. Where did the six million figure come from? How, exactly, did the gas chambers work? Why do we have so little physical evidence from major death camps? Why haven’t we found even a fraction of the six million bodies, or their ashes? Why has there been so much media suppression and governmental censorship on this topic? In a sense, the holocaust is the greatest murder mystery in history. Not only is it a fascinating story in its own right, but it can point us to deeper truths about our contemporary society. It is a topic of greatest importance for the present day. Let’s explore the evidence. Softcover, 128 pages, 13 illustrations, #816, $15.

Commandant of Auschwitz: Rudolf Höss, His Torture and His Forced Confessions
By Carlo Mattogno. Here is the whole story, meticulously documented, of why Rudolf Höss, the commandant of Auschwitz, agreed to confess to anything the Allies accused him of, despite the fact it would have been impossible for him to have committed the crimes to which he confessed! A classic treatise not only on the WWII holocaust of the Jews, but also an inside look at how constant torture destroys a man from within and without. Softcover, 402 pages, bibliography, index, #802, $25.

Auschwitz: A Judge Looks at the Evidence
Auschwitz is the epicenter of “the Holocaust.” There is no place on Earth where more people are said to have been murdered than at Auschwitz. At this detention camp, the industrialized mass murder of the Jews by Nazi Germany reached its “demonic pinnacle.” This narrative is based on a wide range of evidence, the most important of which was presented during two trials whose findings form the foundation of our present image of Auschwitz: the International Military Tribunal of 1945-1946 in Nuremberg, Germany, and the German Auschwitz Trial of 1963-1965 in Frankfurt. But, when we dig deeper into the rulings of these trials and the actual evidence they are based upon, the story looks quite different. The late Wilhelm Staeglich, until the mid-1970s a German judge, has so far been the only legal expert to critically analyze the foundations of what we today think we know about Auschwitz. His research results leave the reader at times breathless. Softcover, 422 pages, #718, $35.

The Dissolution of European Jewry
By Walter N. Sanning. Updated by Germar Rudolf. Before World War II, Eastern Europe was the demographic center of world Jewry. After the war, however, only a fraction of it was left behind. What happened? The “holocaust,” most will say. The author of this book did not stop there, but thoroughly explored European population shifts, deportations and evacuations conducted by both Nazis and the Soviets. The results are shocking. This edition has an updated foreword by Prof. Arthur R. Butz and an important epilogue by Germar Rudolf. It compares Sanning’s study with a politically correct foundation of our present image of Auschwitz: the International Military Tribunal of 1945-1946 in Nuremberg, Germany, and the and the German Auschwitz Trial of 1963-1965 in Frankfurt. But, when we dig deeper into the rulings of these trials and the actual evidence they are based upon, the story looks quite different. The late Wilhelm Staeglich, until the mid-1970s a German judge, has so far been the only legal expert to critically analyze the foundations of what we today think we know about Auschwitz. His research results leave the reader at times breathless. Softcover, 422 pages, #718, $35.

BOOKS ON THE HOLOCAUST

Jewish Emigration from the Third Reich. By Ingrid Weckert. Current historical writings about the Third Reich paint a bleak picture regarding its treatment of Jewish citizens. The truth is that the emigration was welcomed and supported by the German authorities. Weckert’s booklet elucidates the emigration process in law and policy. Softcover, 72 pages, index, #589, $8.

Treblinka: Extermination Camp or Transit Camp? It is alleged that at Treblinka in East Poland between 700,000 and 3,000,000 persons were murdered in 1942 and 1943 in a variety of clever ways. Graf and Mattogno examine the record and present a non-mainstream conclusion. Softcover, 365 pages, B&W illustrations, bibliography, index, #389, $25.

Chelmno: A German Camp in History & Propaganda. By Carlo Mattogno. It was at Chelmno that huge masses of prisoners—as many as 1.3 million—were allegedly rounded up and killed. Eyewitness statements, forensics and coroner reports, excavations, crematoria, building plans, U.S. reports, German documents, evacuation efforts, mobile death vans—all are discussed. Softcover, 191 pages, indexed, illustrated, bibliography, appendices, #619, $20.

The Gas Vans: A Critical Investigation. (A perfect companion to the Chelmno book above.) By Santiago Alvarez and Pierre Marais. It is alleged that the Nazis used mobile gas chambers to exterminate 700,000 people. Up until 2011, no thorough monograph had appeared on the topic. Santiago Alvarez has remedied the situation. Alvarez scrutinizes all known wartime documents, photos and witness statements, and debunks the “homicidal gas van” myth. Softcover, 390 pages, B&W illustrations, index, #607, $25.

Belzec in Propaganda, Testimonies, Archeological Research and History. By Carlo Mattogno. Witnesses report that between 600,000 and 3 million Jews were murdered in the Belzec camp in Poland. Various murder weapons and corpse disposal methods were allegedly used. Also, forensic excavations were performed at Belzec. All of this evidence is critically reviewed. Softcover, 138 pages, B&W illustrations, index, #540, $15.

Concentration Camp Majdanek. By Carlo Mattogno and Jürgen Graf. Little research had been directed toward concentration camp Majdanek in central Poland, even though it is claimed that up to a million Jews were murdered there. This glaring research gap has finally been filled. Softcover, third edition, 350 pages, B&W illustrations, bibliography, index, #380, $25.

Auschwitz Lies: Legends, Lies and Prejudices on the Holocaust. By Carlo Mattogno and Germain Rudolf. The fallacious research and alleged “refutation” of Revisionist scholars by a variety of mainstream historians are exposed for what they are: blatant and easily exposed politically expedient lies. Softcover, second edition, 398 pages, B&W illustrations, index, #541, $25.

Auschwitz: Crematorium I and the Alleged Homicidal Gassings. By Carlo Mattogno. The morgue of Crematorium I in Auschwitz is said to be the first homicidal gas chamber there. This study investigates all statements by witnesses and analyzes hundreds of wartime documents to accurately write a history of that building. Softcover, 138 pages, B&W illustrations, bibliography, index, #546, $18.

Auschwitz: Open Air Incinerations. By Carlo Mattogno. Millions of corpses are claimed to have been incinerated in deep ditches in the Auschwitz “death” camp. This book examines the many testimonies regarding these incinerations and establishes whether these claims were even possible. Softcover, 132 pages, B&W illustrations, bibliography, index, #547, $12.

Germany’s War

The Origins, Aftermath and Atrocities of World War II

MEIN KAMPF
THE STALAG EDITION

By Adolf Hitler
Translator: Unknown NSDAP member

This is the only complete, unabridged and officially authorized English translation of Mein Kampf ever issued by the Nazi Party, and is not to be confused with any other version. Translated by a now-unknown English-speaking Nazi Party member, it was printed by the Franz Eher Verlag in Berlin for the Central Press of the NSDAP in limited numbers during the years 1937 to 1944. Most copies were distributed to the camp libraries of English-speaking prisoner of war camps, and became known as the “Stalag” edition (Stalag being a contraction of the German word Stammilager or “POW camp”) because they all carried a camp library rubber stamp on the title page. Only a handful of copies survived the war, and the text contained in this edition has been taken directly, without amendment, from one of these extremely rare editions.

This official translation is not to be confused with the “James Murphy” or “Ralph Mannheim” translations, both of which were edited and abridged and are unauthorized. The Murphy and Mannheim editions both left out major sections of text, and contained long, clunky, badly translated and almost unintelligibly long sentences.

In sharp contrast, the only authorized “Stalag” edition contains none of these complicated and unnecessarily confused constructions, and is extremely easy to read, as anyone familiar with the other versions will immediately notice. Most importantly, this only authorized edition contains the full text of the original German—and none of the deliberately-inserted racial pejoratives used in the Murphy and Mannheim versions (words that Hitler never used in the original).

This edition also includes a reproduction of the original title page of a copy of the only official English translation of Mein Kampf ever issued, complete with a Stalag camp number 357 stamp. Stalag 357 was located in Kopernikus, Poland, until September 1944, when it was moved to the old site of the former Stalag XI-D, near the town of Fallingbostel in Lower Saxony, in northwestern Germany. Its internees included British air crews and, later, British soldiers captured at the Battle of Arnhem.

Contrary to postwar propaganda, Mein Kampf does not contain a “plan for world domination” and instead consists of a short autobiography, the effect of World War I on Germany, a discussion of race and the “Jewish Question,” the constitutional and social make-up of a future German state and the early struggles of the NSDAP up to 1923.

Mein Kampf: The Stalag Edition (softcover, 584 pages, 6 x 9, #675, $35 minus 10% for TBR subscribers plus $5 S&H in the U.S.) is available from TBR, P.O. Box 550, White Plains, MD 20695. **Jewish Domination of Weimar Germany**

By Eckhart Verlag and Francis Dupont. This was the National Socialist government’s first English-language attempt to explain the rationale behind their legislative moves to restrict Jewish influence in Germany after 1933. Using official pre-Nazi-era demographics, this work showed that Jews were massively over-represented in all fields of German social and economic life—except farming and creative work. It lists the ownership of mass media in Weimar Germany, the astonishing financial scandals, communist and other political subversion, degenerate theater, sexual psychology, communist indoctrination in schools and the media. Softcover, 96 pages, #670, $14.

**Communism in Germany! The Truth About the Communist Conspiracy**

By Adolf Ehrt. This illustrated work shows that the Communist conspiracy to create a 1918-style Bolshevik Revolution in Germany was far advanced. Bombings, assassinations and a planned list of murders and street violence were already underway when the Reichstag arson took place as part of the plan to create a Soviet Germany. Softcover, 179 pages, #700, $20.

**The Brainwashing of the German Nation**

By Udo Walendy. The author has been imprisoned because he refuses to parrot the official lies of the German and Allied governments. Here, Walendy describes the hidden truth of the “legal” origin of today’s German laws, forced on a defeated people, now stripped of their history and their identity. If you want to know why the German government, for instance, is so intent on suppressing Revisionist research on the “Holocaust,” then you need to read this book. Softcover, #110, 64 pages, $9.

**The Myth of German Villainy**

The official story of Western Civilization in the 20th century casts Germany as the disturber of the peace in Europe, and the cause of both WWI and WWII, though the facts don’t bear that out. During both wars, fantastic atrocity stories were invented by the Allied propaganda machine to create hatred of the German people for the purpose of bringing public opinion around to support war. The bogus mainstream propaganda that emerged after WWII further solidified this image of Germany as history’s ultimate dastardly villain. By Benton Bradberry. Hardback, 454 pages, #647, $32.

**The Bad War: The Truth Never Taught About World War Two**

Banned by Amazon! After years of five-star ratings, Amazon finally caved and banned Mike King’s *The Bad War*, Why? Here is the book to break the truth blockade! Americans today have an almost identical recollection of WWII as the “good war,” fought by their forebears against the “Krauts” and “Japs.” But how much do we know about that crucial event and the decades of complex European history preceding it? For whom were the 20th century’s global wars actually waged? A photo-journalistic chronology—300 of the most important events of the war reinterpreted in brief synopses. 400 illustrations. Softcover, 308 pages, #772, $25.

**Hitler in Argentina: Hitler’s Escape from Berlin**

By Harry Cooper. This book not only tells of the escape of Hitler, Eva Braun, Bormann and others of the Reich, it includes photographs and files from the FBI, CIA and OSS that show the United States knew these top Nazis escaped, exclusive interviews and much more. Softcover, 304 pages, #748, $25.

**Hitler’s Second Book: German Foreign Policy**

Often called Hitler’s “Secret Book,” this is the only full-length, completely unedited and correctly translated text of Hitler’s second book, written to explain National Socialist foreign policy. Dictated in 1928 to Max Annan. Within these pages the reader will find the philosophical principles that underwrote German domestic and foreign policy, and prescient predictions by Hitler. Softcover, 200 pages, indexed, #732, $21.

More Books About Hitler & Nazi Germany

Germany’s Hitler: The Only Authorized Biography
By Heinz A. Heinz. One of the most suppressed English-language books ever to emerge from Germany: the 1938 authorized biography of Adolf Hitler. Included are vivid and unique descriptions of Hitler at school, his World War I battlefield experiences, early politics, the amazing truth behind the November 9th Putsch, Hitler in prison, and the struggle to power from 1926 to 1933. It ends just after the Austrian Anschluss and the end of the Czech/Sudeten crisis. This work is vital for anyone interested in understanding how Hitler turned around a destitute nation in just a few short years. Is this why this book has been so successfully suppressed over the past two generations? Softcover, contains all original illustrations, 234 pages, $747.00, $15.

The Program of the Party of Hitler
The Program of the Party of Hitler, the National Socialist German Workers’ Party and Its General Conceptions. By Gottfried Feder. Translated by E.T.C. Dugdale. Written by one of the original founding members of the NSDAP, this booklet was the primary political document that underpinned the ideology and ideas of the future Nazi Party. Dealing with every conceivable topic—foreign policy, internal policy, property, usury, economics, race, religion, culture, agriculture, and much more—this far-reaching document provides a sweeping and comprehensive look into the dramatic world-view of National Socialism. Softcover, 119 pages, $446.00, $14.

The Myth of the Six Million
Prof. David Hoggan. Jewish memoirs of the camps; Auschwitz Commandant Hoess’s memoirs; additional memoirs of the camps; the unreliability of torture; facts about the Holocaust; Red Cross factual appraisals; Adolf Eichmann; the legends of Hitler’s depravity; and much more. First book ever published on the subject. Fascinating introduction by Willis Carto. Softcover, 119 pages, $446.00, $14.

The Six Million: Fact or Fiction?
By Peter Winter. 5th edition. New appendices. Just some of the amazing revelations in this book include: how Zionists and Nazis cooperated before the war on writing Germany’s racial laws; how Zionists offered to take up arms for Nazi Germany against Britain during WWII; how Nazi policy was first aimed at encouraging Jews to emigrate, and then evacuating them; how official German records show that there were 4.5 million Jews under Nazi control, and 4.3 million lodged claims as “Holocaust victims” after the war; how the USSR used torture to produce “confessions” from Germans; so much more! Softcover, 80 pages, 8.5” x 11” format, 160 illustrations, $604.00, $17.

The First Holocaust. Jewish Fundraising Campaigns With Holocaust Claims During and After WWI
Don Heddesheimer’s compact but substantive First Holocaust documents pre- and post-WWI propaganda that claimed East European Jewry was on the brink of annihilation—and the magic number was 6 million then, as well. The book details how these Jewish fundraising operations in America raised vast sums in the name of feeding suffering Poles and Russians but actually funneled much of the money to Zionist and communist groups even before World War I. Softcover, 2nd edition, 142 pages, illustrations, bibliography, index, $386.00, $15.

Dissecting the Holocaust: The Growing Critique of ‘Truth’ and ‘Memory’
Edited by Germar Rudolf. Dissecting the Holocaust applies state-of-the-art scientific technique and classic methods of detection to investigate the claimed murder of millions of Jews by Germans during WWII. In 22 contributions, the 17 authors dissect generally accepted paradigms of the “Holocaust.” Second revised edition, softcover, 6” by 9”, 616 pages, B&W illustrations, bibliography, index, #219.00, $30.

Auschwitz: The Underground Guided Tour What the Tour Guides Don’t Tell You
By Carolyn Yeager. By taking the reader on a photographic “underground guided tour” of Auschwitz-Birkenau, the author demonstrates it to be a simple labor, concentration and transit camp for political prisoners, where the health of the inmates was the prime concern of the jailers. Softcover, 48 pages, #535.00, $10.00+: $5 each.

Sobibor: Holocaust Propaganda and Reality
By Juergen Graf, Thomas Kues and Carlo Mattogno. Between 25,000 and 2 million Jews are said to have been killed in gas chambers in the Sobibor camp in Poland. This book investigates these claims and shows that they are based on the selective use of contradictory eyewitness testimony. Archeological surveys of the camp in 2000-2001 are analyzed, with fatal results for the extermination camp hypothesis. The book also documents the general National Socialist policy toward Jews, which never included a genocidal “final solution.” Softcover, 434 pages, B&W illustrations, bibliography, index, #536.00, $25.

Hard-to-Find Revisionist DVDs from THE BARNES REVIEW

**Hitler: The Unknown Soldier—1914-18**
Adolf Hitler the fighting man is the subject of this engrossing DVD, chronicling the future leader’s combat experience as a foot soldier in World War I. Excerpts from Hitler’s letters from the front, recollections of regimental comrades and evaluations by his officers offer a revealing portrait of a fearless loner who preferred battlefields to brothels, frontline service to home leave. German, British, and American wartime footage presents a graphic visual impression of life in the trenches. This meticulously researched program provides a unique picture of the most controversial figure of the 20th century. Bonuses: Slide show of rare WWI German postcards with period music, interview with Prof. Ian Kershaw—a leading authority on Hitler. English narration, color and B&W, 80 minutes, B&W/Color, #416, DVD only, $30.

**Hitler’s Blitzkrieg—Parts 1 & 2**
Waffen-SS Gen. Leon Degrelle takes you along on Hitler’s blitzkrieg, vividly describing the tumultuous events of the war’s early years. In part 1, ride along as the Germans storm across Poland in a brand new type of warfare—“lightning war,” in which bombers, tanks and ground troops work in tandem to obliterate enemy resistance. In part 2, the Nazis blitz Holland, Belgium, France, Greece and Yugoslavia. Professional English voice-over narrator. The two 90-minute films retail for $30 each. DVD format only. DVD: Part 1—#421D; Part 2—#440D
BONUS: Buy BOTH Part 1 and Part 2 for $50.

**The Rothschilds: Shares in Waterloo**
The first of three movies made in 1940 under the National Socialist regime in Germany. A historical account of the Rothschild family’s rise to fortune, set mostly in Great Britain during the Napoleonic wars, the movie reflected an ambitious political agenda. Beyond its indictment of Jewish intrigue and avarice, the movie aimed to show the “Judaification” of British society at Rothschild hands, and thus demonstrate why, in Goebbels’s words, Britons had become “the Jews among Aryans.” English subtitles. DVD, B&W, 97 minutes, #576, $30.

**Hitler’s Constructions (Die Bauten Adolf Hitlers)**
An opening montage surveys the glories of earlier Gothic and Baroque construction, then points to Germany’s architectural decay of the early 1930s, represented by the constructions of the Bauhaus School. Architectural salvation comes through Hitler’s call for a new German art, ushering in an architectural legacy he wanted to endure 1,000 years. The sequences that follow illustrate the varieties of National Socialist construction: youth hostels, Nazi Party schools, bridge projects, the Autobahn, ministries and party buildings, as well as the famous monumental works, such as the Zeppelinfeld at Nuremberg and the Olympia Stadium. DVD, B&W, English subtitles, 17 min., #665, $19.

**Victory in The West (Sieg im Westen)**
A film of the Supreme Command of the German army. This restored version of the Third Reich’s most ambitious war documentary chronicles Hitler’s lightning conquest of Holland, Belgium and France in 1940. The six-week campaign, marked by continuous combat and German victories, established the blitzkrieg as a bold strategy that revolutionized warfare. A combination of German newsreels and captured Allied footage are melded to produce a riveting record of the campaign. English subtitles. An audio slide show presents lesser-known details about this campaign. DVD, 120 minutes and 27 bonus minutes, #664, $29.

Now you can see what many filmmakers have called the greatest propaganda film of all time—Ms. Leni Riefenstahl’s *Triumph of the Will*

*Triumph of the Will* (Triumph Des Willens), created by Leni Riefenstahl in 1935, generated perhaps the greatest moral and legal controversy in the history of cinema. It is now available, complete and uncut, from The Barnes Review. The subject of the film is the 1934 Nazi Party convention. Staged annually at Nuremburg, the convention was a series of speeches by German leaders, reviews of their uniformed followers, and mass rallies involving thousands of people. Although Riefenstahl’s work has been labeled a Nazi propaganda film, it is actually the filming of a propaganda subject by a non-Nazi, a woman whose appointment by Hitler to make the film was resented by the propagandists in the Nazi hierarchy.

The result is a fascinating expression of one individual’s impression of the Hitler movement. Riefenstahl’s film pioneered many dramatic techniques of film direction and editing that have effectively translated to the screen all the joy, the unrestrained emotion and the awesome power which characterized the Nazi rallies. The complete dominance of one man’s personality throughout the film, as well as over an entire nation, is more forcefully conveyed to the viewer in *Triumph of the Will* than in any other film or book in existence about the Third Reich. Even today, *Triumph of the Will* is considered a masterpiece—an extraordinary blend of inspired art, direction and cinematography.

Now, the classic film has been digitally remastered and expanded with numerous features. Note that the German dialogue has switchable English and Spanish subtitles.

By Dr. Edward DeVries

Thousands of books have written about Adolf Hitler as the World War II leader of Germany. And there have been more than a few written about young Adolf Hitler as a soldier in World War I. To my knowledge, however, Gen. Leon Degrelle has written the only accurate book—Hitler Democrat—detailing how Hitler rose from World War I corporal to chancellor and commander-in-chief of Germany’s armed forces in WWII.

Degrelle was a Belgian general who chose to side with the Germans because he believed national socialism was preferable to communism. He became one of Hitler’s most trusted advisors and confidants and, because of this, he was actively pursued after the war and forced to live all of his postwar years in exile. From his home-based prison in Spain and with little to lose, Degrelle endeavored to write the truth about Hitler, National Socialist Germany, and World War II.

Every effort was made to silence Degrelle. British and American agents went so far as to kidnap the general’s family after the war; stealing his children and giving them new families and new names. Degrelle tracked them down and continued to write, publishing more than 40 books and essays ranging from poetry to history and from economics to architecture.

He wrote of “putting his political life on the line” by visiting North Africa, the Middle East and all of the European countries to meet with Franco, Laval, Pétain, Mussolini, Churchill, Hitler and others. He described his travels as “desperate efforts to stop the railroading of Europe into another war.”

On page 16 of the book’s introduction, Michael Collins Piper comments on Gen. Degrelle’s efforts to tell his story: “Degrelle relished the opportunity to be able to speak freely and valued the chance to be able to have his thoughts expressed in the English language to audiences who certainly never had the opportunity to hear ‘the other side’ expressed in such heartfelt language from one who was there.”

Hitler Democrat is unique and different from Degrelle’s other offerings because it includes the specific details of how Adolf Hitler built his political machine and ultimately rose to become the leader of Germany. This was achieved not through violence or revolt but through the nation’s democratic process. Degrelle writes on page 61: “The unknown and lone Corporal Hitler called on Germany to resist. … It would take him 14 long years to reach and win over, one by one, the millions of voters, since the establishment and special interest groups were automatically against him.”

Hitler achieved this sea-change in public opinion by tirelessly giving speeches, holding rallies and publishing articles in German newspapers because, as Degrelle writes on page 64, “To him, true democracy was based on convincing people one by one. But he also realized that the tragic days Germany was going through made it urgent to reach as many people as he could. To this end he convinced the party to gather together enough money to buy space in the Völkischer Beobachter, a small patriotic newspaper.”

On page 74 Degrelle writes of the aspiring politician’s “years of struggle, always against the stream, against continual obstacles, to reach the remaining 60 million Germans. But he never had the slightest doubt that he would reach his goal.”

Over time, Hitler’s national socialist ideas moved slowly from the fringes to the center of German thought. Moreover, his rise to power
had been entirely “democratic.” As Degrelle writes on page 105, “His initial triumph had come through the support of the electorate … in the same manner, the real and long-term governmental power granted him by the Reichstag had been by a vote of more than three-quarters of the nation’s deputies elected in a system of universal suffrage.”

That was a clear principle with Hitler: no power without the freely given approval of the people. Hitler used to say, “If you can win mastery over the people only by imposing the power of the state, you’d better figure on a nine o’clock curfew.” (See p. 105.)

Nowhere in 20th-century Europe had the authority of a head of state ever been based on such overwhelming and freely given national consent. “Prior to Hitler,” writes Degrelle, “from 1919 to 1932, the virtuously self-styled democratic governments had come to power only by meager majorities around 51 or 52 percent. And many of those electoral victories were achieved without regard to abstentions in the voting.” (See pp. 105-106.)

“I am not a dictator,” Hitler had often affirmed, “and I never shall be. Democracy will be rigorously enforced by national socialism.” As Degrelle contends, “A tyrant is someone who puts himself in power without the will of the people or against the will of the people,” but, Adolf Hitler was placed into leadership “by the people.” (See p. 106.)

Degrelle, who before the war had been one of Belgium’s foremost statesmen, writes on page 106: “Democracy is not limited to a single formula. It may be partisan or parliamentary. … The important thing is that the people have wished it, chosen it, established it in its given form. … Whether the historians like it or not, the fact is undeniable: Year after year, Hitler’s support among the German people grew ever more strongly in favor of him. The more intelligent of those who initially condemned him were unable to deny this fact.”

Moreover, anyone could easily have voted against Hitler and, as Degrelle points out on page 335, when Hitler ran for re-election, nearly 3 million Germans did vote against him: “40,632,628 ‘yes’ votes out of a total of 43,493,575 voters meant that 2,860,947 German citizens had not approved of the Fuehrer. Seven percent of the Germans had marked their disagreement; 50 percent or more could just as easily have done so. The possibility of opposition was further clearly shown by the fact that the list of national socialist deputies had received only 30 million votes from the 45 million voters, instead of the 40,632,628 votes obtained by Hitler himself.”

Before Degrelle died in 1994, he compared Hitler’s economic philosophy to that of another world leader he admired, U.S. President Ronald Reagan. (See p. 143.) As a result, Germany experienced an economic revival that made it the envy of the world. For this reason, perhaps more than any other, Hitler was beloved by the German people. Degrelle writes on page 152: “In the course of his 12 years in power, no incident ever occurred: When Hitler was among the people, he was at home, and he was received like the
member of the family who had been the most successful."

As someone who had been a close advisor to the German leader, Degrelle writes that the Hitler portrayed in the postwar histories was not the Hitler he knew, perhaps demonstrating the old adage that "the victors write the histories": "After 1945, Hitler was accused of every cruelty, but it was not in his nature to be cruel." (See p. 23.)

The Hitler that Degrelle was well read, cared deeply for the German people and—s the general writes on pages 24-25—was both emotionally and intellectually qualified to be their leader:

I don’t think anyone ever read as much as he did. He read at least one book every day, always reading the end and the index first in order to gauge the book’s interest for him. He had the power to extract the essence of each book and then store it in his computer-like mind. I have heard him talk about complicated scientific books with faultless precision, even at the height of the war.

His intellectual curiosity was limitless. He had trained himself in philosophy by studying Aristotle and Plato. Although the latter did not fit into his system, Hitler was nevertheless able to extract what he deemed of value. He could quote entire paragraphs of Schopenhauer from memory, and for a long time carried a pocket edition of Schopenhauer with him. Nietzsche taught him much about willpower.

His thirst for knowledge was unquenchable. He spent hundreds of hours studying the works of Tacitus and Mommsen, military strategists like Clausewitz, or empire builders like Bismarck. Nothing escaped him: world history or the history of civilizations, the study of the Bible and the Talmud, Thomistic philosophy and all the masterpieces of Homer, Sophocles, Horace, Ovid, Titus Livius and Cicero. He knew Julian the Apostate as if he had been his contemporary.

His knowledge also extended to mechanics. He knew how engines worked; he understood the ballistics of various weapons; and he astonished the best medical scientists with his knowledge of medicine and biology. The universality of Hitler’s knowledge may surprise or displease those unaware of it, but it is nonetheless a historical fact: Hitler was one of the most cultivated men of the 20th century. A thousand times more so than Churchill, an intellectual mediocrity; or than Pierre Laval, with his mere cursory knowledge of history; or than Roosevelt; or Eisenhower, who never got beyond detective novels.

This reviewer has read several World War II histories and even a few Hitler biographies, but only after reading Hitler Democrat did I feel that I truly knew and understood this man who—far more than anyone else—was the central character in the drama that was WWII.

Interestingly, Hitler Democrat has also given me far greater understanding and appreciation for President Donald Trump. This is not because I give any credence to the mainstream media’s simpleminded comparisons of Trump to Hitler, but rather because Trump is a patriot just as Hitler was. Unlike most politicians, Trump truly places the interests of his people above his own.

Both were the democratically elected leaders of their nation, but like Hitler, Trump is constantly maligned and besieged by both the news media and by the “Political Class” who oppose him. As Degrelle began to explain the politics of Hitler’s nation and of his time, I came to more fully understand the politics of my own nation, today. For this and many other reasons, I highly recommend to our readers Hitler Democrat by Gen. Leon Degrelle.

French Gestapo Trials and Other Articles
A book by Vincent Reynouard

By Vincent Reynouard. Translated by Carlos Porter. Is everything we have been told about the “evil” Gestapo—the German secret police of the Third Reich—nothing but lies and overexaggerated atrocity yarns? Is the reputation of the Gestapo as a murderous collection of torturers and thugs false? Vincent Reynouard has taken the time to compare the accusations made against the Gestapo at the Nuremberg Tribunals by the Allies with the postwar French trials of the same personnel, involving the same cases, the same victims and the same eyewitnesses. What he found was that the evidence and accusations presented by the French and Allies against the Germans were not the same. The accusations made at Nuremberg in these cases were grossly embellished, proving the Nuremberg Trials were a complete sham. Softcover, 236 pages, #734, $18.
The East Came West: Operation Keelhaul

While researching material for the writing of *The East Came West*, author Peter J. Huxley-Blythe discovered why the Russian people do not trust the United States or Great Britain. When WWII ended, millions of Russian men, women and children in the West were shipped like cattle back to the Soviet Union to face Stalin’s executioners, or to serve long sentences at hard labor in the death camps of Siberia—with the approval and assistance of the Allies. Their only crime had been that they had fought against the Bolshevik regime—as had many U.S. soldiers in the years after the October Revolution under the direction of President Woodrow Wilson. This was a dastardly act of the greatest hypocrisy and betrayal that resulted in the death and enslavement of millions of good Russian freedom fighters and their families. Soft cover, 224 pages #434, $20.

Victims of Yalta: The Secret Betrayal of the Allies—1944-1947

Nikolai Tolstoy tells the sordid tale of the millions of Russians who fought back against the Soviet terror before and during World War II, and how they were betrayed by the Allies in what is called “Operation Keelhaul.” After the war, literally millions of anti-Communist Cossack fighters and civilians came under the control of British, French and American forces. But no matter the status of the person—civilian, POW or militia fighter—the secret Moscow agreement of 1944 demanded that all Soviet citizens in the West be forced to return to Russia. This was a death sentence by execution or forced labor in the Gulag for the vast majority, as Stalin had refused to even admit that there were any Soviet POWs as he demanded that his soldiers fight to the death rather than surrender, no matter the situation. This book, along with Peter Huxley-Blythe’s *The East Came West* (see facing page) will give you all you need to know about this tragedy. Hardback, 496 pages, indexed, #682, $26.

OTHER LOSSES

*An Investigation Into the Mass Deaths of German Prisoners at the Hands of the French and Americans After World War II*

Seldom has the publication of a historical monograph on a subject ordinarily of interest only to a few specialists—the treatment of prisoners of war—received so much attention or excited so much anger as *Other Losses* by James Bacque (shown above). Published in 1989 in Canada, the book received so much notoriety because it accused Gen. Dwight D. Eisenhower, as head of the American occupation of Germany in 1945, of deliberately starving to death German prisoners of war in staggering numbers. Bacque charges that “the victims undoubtedly number over 800,000 and quite likely over a million. Their deaths were knowingly caused by those who had sufficient resources to keep them alive.” Photo section of the book shows the deplorable conditions in which the German POWs were kept. While concentration camp inmates got barracks, bunks, food and heat, the Germans were kept in open-air pens in freezing weather with the only shelter being holes dug in the ground. Softcover, 324 pages, #619, $25
